

## Details of your suggestion

Please provide additional information and supporting documentation as attachments.

Dear Secretarial, I would like kindly to suggest all our suburbs in Sydney to stay & belong to their the Councils, that they did up to approximately 5 Years ago (I say "approximately 5 Years ago" - because we, people that leave in that suburbs are never told what the Council decision is).

Campsie 2194, Belmore 2192 & ..... SSCH would like the boundaries of Canterbury district to remain as how they are. ! Referring to the projected enrollment statistics, Canterbury meets its quota for NO boundary changes. This means, that no Suburb within the current district of Canterbury is to be excluded, with exceptions to some houses on boundary lines streets. Campsie 2194 & Belmore 2192 ..... does not support any rewriting of the NSW boundary lines & further more - does not support amalgamating, splitting, merging, consolidating or separating any current NSW district. Further more - it does not support the creation of a new NSW district, unless there is overwhelming demand from the constituents of that district is warranted.

Finally & lastly - with up most pride, Campsie 2194, Belmore 2192...and SSCH does not support any proposal for the name change of Canterbury.

As constituents of Canterbury Council - we are proud of our history, legacy, heritage & District Name !
