

Please provide additional information and supporting documentation as attachments.

Dear Electoral Commission,

I would like to let you know that the Port Stephens electoral district is working effectively and efficiently. Many great outcomes for our community have been achieved during the tenure of our current MP Kate Washington.

Given that our area is enormous in the Federal seat of Lyne it is refreshing to have a far more accessible State area. One that covers villages and towns that are close to us and with whom we can engage with as the need arises. And that our MP responds and represents us.

Please leave the boundaries as they are for Port Stephens.

Yours Sincerely

██████ Lane
