## Snapshot - electoral enrolment statistics

<b>Enrolment Summary of 93 Districts</b>	<b>Current Enrolment 23 March 2020</b>	<b>Projected Enrolment 17 April 2023</b>
<b>Number of electors in NSW</b>	5,318,924	5,509,652
<b>Average number of electors per district (Quotient)</b>	57,193	59,244
<b>Upper limit of quotient per district (+10%)</b>	62,912	65,168
<b>Lower limit of quotient per district (-10%)</b>	51,473	53,319

## Introduction

1. On 11 December 2019, Her Excellency the Governor appointed the Hon Arthur Emmett AO QC as the Chairperson of the Electoral Districts Redistribution Panel (the Redistribution Panel). Mr John Schmidt, Electoral Commissioner for NSW, and Mrs Narelle Underwood, Surveyor-General of NSW, are the *ex officio* members of the Redistribution Panel, pursuant to section 17 of the [Electoral Act 2017](#) (**the Electoral Act**).
2. The redistribution is the first to be conducted under the Electoral Act, which commenced operation in July 2018. Previous redistributions were conducted under the now-repealed *Parliamentary Electorates and Elections Act 1912* (**the PE&E Act**).
3. The purpose of a redistribution of electoral districts is to ensure that, as far as practicable, each electoral district of the New South Wales Legislative Assembly has an equal number of electors (within a margin of allowance of 10 per cent more or less of the average enrolment in electoral districts at a specified future time).
4. For this redistribution, there has been no change to the number of electoral districts, which is currently set at 93 by section 25 of the [Constitution Act 1902](#) (**the Constitution Act**). Also, the redistribution does not affect in any way the composition or structure of the Legislative Council.
5. Once finalised, the redistribution comes into effect for the March 2023 State General Election. Any by-elections that take place prior to that election will be conducted on the applicable 2019 electoral district boundaries.

## Process and timeframe

1 Jun 2020	Notice published in the Government Gazette inviting written suggestions relating to the distribution of New South Wales into electoral districts, and any comments on such suggestions.
1 Jul 2020	Closing date for suggestions.
2 Jul 2020	Opening date for comments on suggestions.
3 Jul 2020	Suggestions lodged with the Redistribution Panel made available for public inspection on the Electoral Commission's website.
15 Jul 2020	Closing date for comments relating to any suggestions received.
20 Jul 2020	Comments on suggestions lodged with the Redistribution Panel made available for public inspection on the Electoral Commission's website.
Jun-Nov 2020	The Redistribution Panel considered all suggestions and comments lodged, as well as enrolment statistics and community-related factors, to produce the draft determination of the names and boundaries of electoral districts.
9 Nov 2020	Public notice given in the Government Gazette of the Redistribution Panel's draft determination of the names and boundaries of electoral districts inviting written submissions relating to the draft determination, and any comments on such submissions.
9 Dec 2020	Closing date for submissions on the draft determination of the names and boundaries of electoral districts. Submissions lodged will be made available for public inspection on the Electoral Commission's website as soon as is reasonably practicable after the expiry of the submission period.
10 Dec 2020	Opening date for comments on submissions.
23 Dec 2020	Closing date for comments on submissions on the draft determination of the names and boundaries of electoral districts. Comments received will be made available for public inspection on the Electoral Commission's website as soon as is reasonably practicable after the expiry of the comments period.
2021	<p>The Redistribution Panel will consider all submissions on the draft determination of the names and boundaries of electoral districts, and comments on the submissions, before making a final determination of those names and boundaries.</p> <p>As part of its consideration, the Redistribution Panel will determine whether a public hearing is to be held. If a public hearing is held, oral and further written submissions may be made to the Redistribution Panel by or on behalf of any person who, or</p>

organisation that, lodged a submission or comment on the draft determination.

The Redistribution Panel will prepare a revised determination of the names and boundaries of electoral districts, having regard to all submissions and comments received and oral and written submissions made at any public hearing. If the Redistribution Panel is of the opinion that its revised determination will not be significantly different from the draft determination, the Panel will determine finally the names and boundaries of electoral districts. If the Panel is of the opinion that the revised determination will be significantly different from the draft determination, a round of objections and comments will be conducted.

As soon as practicable after the Redistribution Panel has finally determined the names and boundaries of electoral districts, the Redistribution Panel will give that final determination to the Governor, who will cause a proclamation to be published in the Gazette, setting out:

- (a) the name of each electoral district, and
- (b) a map of each electoral district.

On publication of the proclamation, the electoral districts specified in the proclamation will be, until altered by a further distribution required under the Constitution Act, the electoral districts of New South Wales.

## The legislative framework

### The *Constitution Act 1902*

6. The last redistribution was completed in 2013 and the State General Elections of 2015 and 2019 were conducted on the electoral boundaries determined at that redistribution. The current redistribution is conducted under section 27(1)(c) of the Constitution Act, which requires a redistribution of electoral boundaries after two State General Elections have been conducted using the same electoral boundaries.
7. Section 28 of the Constitution Act provides that, upon a distribution of New South Wales into electoral districts, the boundaries of each proposed electoral district shall be so determined that, at the time the distribution is made, the number of persons entitled to vote at a general election of Members of the Legislative Assembly in each proposed electoral district is equal to a quotient from which the number of persons in each electoral district will not vary by more than ten percent.
8. This quotient is obtained by dividing the number of persons enrolled at that time to vote at any general election in all the proposed electoral districts by the number of the proposed electoral districts at the time of the distribution, namely 93.

### The *Electoral Act 2017*

9. The machinery for conducting a redistribution is contained in Part 3 of the Electoral Act.

### Criteria for distributions

10. Section 21(1)(a) of the Electoral Act requires the Redistribution Panel to have regard to demographic trends within the State and, as far as practicable, endeavour to ensure on the basis of those trends that, at the relevant future time, the number of electors enrolled in each electoral district will be equal, within an allowable margin of ten percent (10%) of the average enrolment in electoral districts at that future time.
11. The 'relevant future time' for the purposes of this redistribution is 17 April 2023. As required by section 21(2) of the Electoral Act, this date is four years from the day of the return of the writs for the 2019 State General Election, which chose the Legislative Assembly that exists at the time when this distribution is being carried out.
12. Section 21(1)(b) of the Electoral Act requires the Redistribution Panel to give due consideration in relation to each electoral district to:

- (i) the community of interest within the electoral district, including economic, social, and regional interests;
- (ii) the means of communication and travel within the electoral district;
- (iii) the physical features and area of the electoral district;
- (iv) any mountain and other natural boundaries; and
- (v) the boundaries of the existing electoral districts.

### Recognised demographer

13. In accordance with section 23(2)(a) of the Electoral Act, the Redistribution Panel has engaged a demographer, namely **I.D. Consulting Pty Ltd (.id)**, to prepare projected enrolment numbers by SA1<sup>1</sup> for the purpose of defining enrolment statistics at the 'relevant future date'. This data is published under *Current and projected enrolment by SA1*, on the Electoral Commission's website.<sup>2</sup> This is the demographer used by the Electoral District Commissioners in carrying out the 2013 redistribution.
14. The demographer has also provided the Panel with an accompanying narrative, titled *Voter Trends Report*, which highlights longer-term patterns of enrolment change (**Voter Trends Report**). A copy of the Voter Trends Report is available on the Electoral Commission's website.

### Suggestions and comments phase

15. Due to uncertainty caused by the outbreak of the COVID-19 pandemic, the Redistribution Panel did not commence the redistribution suggestion phase until 1 June 2020. To assist stakeholders in preparing their suggestions prior to commencement of the formal consultation process, the Redistribution Panel gave public notice on 20 April 2020 that the redistribution would be occurring, and encouraged anyone interested to view the current electoral district maps and enrolment data on the NSW Electoral Commission website.
16. Forty-one (41) suggestions on electoral districts were lodged with the Redistribution Panel during the initial month-long consultation period in June 2020. In the 14-day comments period which followed, the Panel received ninety (90) comments on these suggestions. In accordance with section 23(2)(b) of the Electoral Act, the Redistribution Panel has considered all suggestions and comments in the development of the draft determination.
17. Suggestions and comments were made available on the redistribution website in accordance with section 22(3) of the Electoral Act as follows:

---

<sup>1</sup> Statistical Area 1 (SA1) is the smallest unit for the release of data from the Australian Bureau of Statistics' quinquennial *Census of Population and Housing*. Urban SA1s have a population of between 200 and 800 people, with an average population size of approximately 400 people. SA1s in remote and regional areas generally have smaller populations than those in urban areas.

<https://www.elections.nsw.gov.au/redistribution/Make-a-suggestion/Suggestions-on-electoral-districts>;

and

<https://www.elections.nsw.gov.au/redistribution/Comments-on-suggestions/Comments-on-suggestions>.

### **Manner of identifying boundaries of electoral districts**

18. Pursuant to section 24(1) of the Electoral Act, the Redistribution Panel may determine the boundaries of electoral districts by reference to such matters (including cadastral, topographical, administrative and other spatial information) as the Redistribution Panel thinks fit.
19. In determining the location of boundaries, the Redistribution Panel used the BoundaryMaker application, provided to the NSW Electoral Commission under an agreement with the Victorian Electoral Commission.
20. BoundaryMaker is a plug-in to the MapInfo geographical information software.<sup>3</sup> It facilitates the balancing of current and projected electors across proposed electoral boundaries.

### **Notification requirements**

21. Section 25(1) of the Electoral Act requires the Redistribution Panel to give public notice of its draft determination of the names and boundaries of electoral districts:
  - (a) in the Gazette;
  - (b) on the Electoral Commission's website; and
  - (c) in a newspaper published or circulating in New South Wales.
22. Pursuant to section 25(2), the public notice must:
  - (a) include a written statement that the following are available for inspection on the Electoral Commission's website:
    - (i) a map setting out the Redistribution Panel's proposed names and boundaries of electoral districts,
    - (ii) the Panel's reasons for making the draft determination, and
  - (b) invite submissions in writing, to be lodged with the Panel within 30 days after the date the public notice was given (**the submission period**), relating to the draft determination, and
  - (c) invite comments in writing, to be lodged with the Panel within 14 days after the expiry of the submission period (**the comments period**), relating to any submissions received by the Panel under this section, and

---

<sup>3</sup> The MapInfo Pro software is a computer desktop product used for mapping and analysing spatial data.

(d) notify the public that any submissions and comments lodged with the Panel will be made available for public inspection on the Electoral Commission's website as soon as is reasonably practicable after the expiry of the submission period or comments period, as the case requires.

## **Guiding Principles of the Redistribution**

23. As noted earlier, the statutory criteria for conducting a redistribution are set out in section 21 of the Electoral Act. In its deliberations, the Redistribution Panel has had regard, and given consideration, to those criteria.

### **Equal number of electors enrolled in each electoral district**

24. Under section 21(1)(a) of the Electoral Act, the primary determinant of NSW's electoral boundaries is future enrolment projections to give, as far as practicable, effect to the concept of 'one vote one value'. However, both the Constitution Act and the Electoral Act allow for a statutory margin of +/- 10% in electors between districts.

25. The decline of the rural population in NSW, particularly in the Far West of the state, is not a new phenomenon, and is likely to continue. It soon became apparent to the Redistribution Panel that a rigid attempt to achieve equal elector numbers among districts would have necessitated a wholesale redrawing of almost all electoral district boundaries across the State. That course also would have resulted in a significant increase in the size of some rural electoral districts. The Redistribution Panel therefore gave consideration to the other statutory criteria in section 21(1)(b) of the Electoral Act, including community of interest, means of communication/travel, and existing electoral districts.

26. In the case of large rural electoral districts, the Redistribution Panel adopted the approach of making limited boundary adjustments with a view to maintaining projected variances from the quotient by 2023 within the allowed statutory margin of +/- 10% in electors between electoral districts.

### **Community of interest**

27. Section 21(1)(b) of the Electoral Act provides that, in determining where a particular boundary is to be located, the Redistribution Panel may take into consideration the potential impact upon communities of interest within the proposed electoral district.

28. The Redistribution Panel considers that section 21(1)(b) of the Electoral Act should be read as a whole, to provide an interlocking set of criteria to determine what is a community, rather than considering each element in that provision separately. Thus, the elements of means of communication and travel, and physical features such as mountains and waterways, are to be regarded as

aspects in the definition of those communities, rather than in isolation. This appears to have been the approach adopted by the Electoral District Commissioners in the 2004 redistribution, in which:

... boundaries were defined, where possible, to include whole Local Government areas and particular regard was given to the consideration of the concept of a community of interest. Close attention was also paid to following major roads, motorways, railways and significant geographic features where applicable so as to achieve clear boundaries.<sup>4</sup>

29. While similar views were expressed by the 2013 Electoral Commissioners, they also stressed the need for the strong views of a particular community to be balanced against the broader deliberative processes of the entire redistribution.<sup>5</sup>

30. The Redistribution Panel was given significant assistance in its consideration of what constituted a community of interest by the many suggestions and comments lodged by individuals, community organisations and local councils. The Redistribution Panel also consulted the records of the NSW Electoral Commission to ascertain where specific local populations have cast their votes at State General Elections and by-elections.

### **Alignment with local government boundaries**

31. It is a common theme of the last two redistributions, and of many current suggestions and comments, that a local government area (**LGA**) can be equated to a community of interest.

32. Electoral districts in rural and regional NSW tend to be of such a size as to encompass more than one LGA, and dividing LGAs between electoral districts may cause administrative complexities. Therefore, in applying the community of interest criterion the Redistribution Panel considers that giving particular consideration to local government boundaries in rural and regional NSW is a desirable approach.

33. Having said this, in Greater Sydney that approach cannot be so readily applied. Unlike electoral districts, LGAs are not based on population: for example, as at the 2016 census, the population of Canterbury-Bankstown was 346,302,<sup>6</sup> while

---

<sup>4</sup> *Commissioners' Report, Reasons for the Determination of Electoral Districts*, <https://www.elections.nsw.gov.au/NSWEC/media/NSWEC/Reports/Redistribution%20reports/2004-Commissioners-Report-PagesIVtoVII300.pdf>

<sup>5</sup> 'Although a number of submissions were passionate in their support for a particular local community issue, the Commissioners have a responsibility to conduct a redistribution that complies with the Act across the State. The Commissioners are confident that any individual determined boundaries do not restrict community interactions': *Commissioners Report*, p vii. [https://www.elections.nsw.gov.au/NSWEC/media/NSWEC/Reports/Redistribution%20reports/Redistribution\\_2013\\_report\\_Part\\_1.pdf](https://www.elections.nsw.gov.au/NSWEC/media/NSWEC/Reports/Redistribution%20reports/Redistribution_2013_report_Part_1.pdf)

<sup>6</sup> [https://quickstats.censusdata.abs.gov.au/census\\_services/getproduct/census/2016/quickstat/LGA11570](https://quickstats.censusdata.abs.gov.au/census_services/getproduct/census/2016/quickstat/LGA11570)

that of Hunters Hill was 13,999.<sup>7</sup> Many urban councils with larger populations necessarily extend across more than one electoral district. These are detailed for the whole of NSW in [Appendix 3](#), *Local government areas contained within proposed electoral district boundaries*.

### Naming conventions

34. The Redistribution Panel gave consideration to naming both new and significantly redrawn electoral districts. In doing so, the Redistribution Panel adopted the following approach:

- (i) Use the names of localities or natural features, rather than personal names.
- (ii) Where readily discernible, use the most appropriate locality name within the proposed boundaries, in terms of position within the electoral district and population.
- (iii) Retain historical names for electoral districts where possible, for example **Parramatta**, the only electoral district to have existed continuously since the first Legislative Assembly elections of 1856.<sup>8</sup>

### Choice of boundaries

35. In addition to having regard to those physical features and natural boundaries specified in section 21(1)(b)(iii) and (iv), the Redistribution Panel has endeavoured to use the most prominent features as boundary-markers. Thus, for example, it is proposed to adjust the boundary between the electoral districts of **Charlestown** and **Wallsend** so as to follow the Central Coast and Newcastle railway line between Newcastle Street and Charlestown Road.

36. The Redistribution Panel also has chosen to align water-adjacent boundaries to the hydro lines of the waterway, such as Lake Macquarie or Sydney Harbour. The hydro line defines the centreline of a water course, including features such as a natural water course, canal-drain, race, spill way or tunnel-siphon. That was also the approach of the 2013 Electoral District Commissioners, who noted that it results in 'defining shore lines within the [relevant] electoral district and so clarifies the enrolment of those residing on fixed moorings or house boats'.<sup>9</sup>

Specific examples are:

- Continuing to follow the hydro line of Lake Macquarie waterbody as the boundary between the electoral districts of **Lake Macquarie** and **Swansea**; and
- An adjustment to shift the boundary of the electoral district of **North Shore** to align with the current hydro lines through Sydney Harbour.

<sup>8</sup> See David Clune, Antony Green & Michael Hogan, *The Electoral Atlas of New South Wales 1856-2006*, NSW Department of Lands, Sydney, 2006, p 5.

<sup>9</sup> *Commissioners Report*, p v.

[https://www.elections.nsw.gov.au/NSWEC/media/NSWEC/Reports/Redistribution%20reports/Redistribution\\_2013\\_report\\_Part\\_1.pdf](https://www.elections.nsw.gov.au/NSWEC/media/NSWEC/Reports/Redistribution%20reports/Redistribution_2013_report_Part_1.pdf)

37. There is also a large number of very minor boundary adjustments that do not affect any electors, but are made for the purpose of improving cadastral or topographic alignment, and which are not noted in the overview below. Examples of this are:

- Adjusting the boundary between the electoral districts of **Heathcote** and **Cronulla** to align with the Royal National Park boundary at Savilles Creek; and
- A small realignment of the boundary between the electoral districts of **Badgerys Creek** and **Prospect** at the Prospect Reservoir Filtration Plant.

38. The Redistribution Panel considers that not only will the boundary choices referred to above provide clarity to electors, but they will be more easily referenced in future redistributions.

## Enrolment data and quotient variance

### Enrolment data

39. As at 23 March 2020, five of the 93 existing electoral districts were more than 10% above the quotient. Additionally, a further thirteen electoral districts had variations from the quotient of over 5%.
40. A small number of electoral districts account for a large portion of the projected enrolment growth; much of this growth is concentrated in the outer suburban areas of north-west and south-west Sydney. Thus, while the current electoral districts of **Camden** and **Riverstone** are projected to reach 52.5% and 21.96% above quotient by 2023, the current electoral districts of **Cootamundra**, **Fairfield** and **Kogarah** are all projected to fall to below 8% under quotient by that time.
41. It was therefore apparent that changes were required to address these imbalances, and bring all electoral districts closer to the quotient.
42. The NSW Electoral Commission published the *Current and Projected Enrolment by SA1* data on its website prior to the commencement of the suggestions phase. This dataset provided the current 'snapshot' of persons enrolled in NSW as at 23 March 2020, as well as the projected number of electors at the 'relevant future date' of 17 April 2023.

### Enrolment trends

43. The Voter Trends Report summarises the forecasts and highlights patterns of projected change over a ten year period from the current enrolment date to 2029. The report, which was prepared for the Redistribution Panel by the demographer, .id, focused on two components:
  - (i) The growth in electors, with reference to the drivers of the underpinning growth in Estimated Resident Population (**ERP**) aged 18 and over; and
  - (ii) The difference in elector share between areas that creates a variation between growth in adult (18 and over) population and electors.<sup>10</sup>
44. The Report summarised the State-wide enrolment trends as follows:

Voter growth in New South Wales from 2019 to 2029 is forecast to be 1.0% per annum, with similar rates in both Greater Sydney and Regional NSW.

---

<sup>10</sup> .id, Voter Trends Report, 28 April 2020, p 8. ERP is the Australian Bureau of Statistics' official 2019 population figure for all LGAs. For areas smaller than LGAs, the ERP is derived from SA1 geographies based on population distribution from the previous census: <https://profile.id.com.au/australia/population-estimate>

However, population growth of adults is forecast to be much higher in Greater Sydney than Regional NSW, as the voter share is much lower in Sydney.

While the voter share in Regional NSW is forecast to remain relatively steady at just over 92%, Greater Sydney is assumed to decline from 79.4% in 2019 to 76.0% in 2029

... Within Sydney, the greatest growth from 2019-2029 is expected in the west, with the largest net gains in the South West SA4 (+56,470 voters), Blacktown SA4 (+41,780 voters), Parramatta SA4 (+32,500 voters) and Baulkham Hills-Hawkesbury SA4 (+31,670 voters).

Voter growth in some Sydney regions is much lower than adult population growth, notably in the City and Inner South and Parramatta SA4s where voter share is 60.5% and 68.1% respectively.

Within Regional NSW, the greatest growth from 2019-2029 is expected in the Hunter Valley (excl. Newcastle) SA4 (+34,900 voters), Newcastle and Lake Macquarie SA4 (+27,300 voters), Mid-North Coast SA4 (+22,650 voters), Illawarra (+20,630 voters) and Capital Region SA4 (+20,350 voters).

... The main areas of significant voter growth in Regional NSW are greenfield areas on the fringe of major centres, especially Newcastle, Wollongong, Canberra and Port Macquarie.

Other areas of growth include Coastal and rural areas within commuting distance of larger regional service centres, such as Tamworth, Wagga Wagga, Nowra, Coffs Harbour and Orange.

... Little voter growth is expected in the western half of State, with the greatest decreases expected in the Riverina and along the Murray.<sup>11</sup>

45. Brief summaries of the relevant enrolment projections are provided below in respect of each NSW region and Sydney division.
46. These projections were used as the basis for calculating the current and projected variance from the statutory quotient of the Redistribution Panel's proposed electoral districts.

### **Current variations from quotient**

47. Only eleven of the electoral districts as proposed in the draft determination have current variations from the quotient of greater than five percent. The Redistribution Panel has endeavoured to set these electoral districts towards

---

<sup>11</sup> .id, Voter Trends Report, 28 April 2020, pp 4-5. 'Greenfield' development is land development characterised by conversion of predominantly rural land use to residential purposes. It is characterised by lower densities, with a higher share of single-lot housing stock. 'SA4' refers to the most aggregate level of the Australian Bureau of Statistics standard geography within Greater Sydney and Regional NSW. It is the equivalent of a broad region.

the lower and upper ends of the allowable variance from the quotient as appropriate, with a view to balancing the projected variances at the relevant future date.

48. These variances are set out below:

<b>Proposed Electoral District</b>	<b>Current variation from quotient (March 2020)</b>	<b>Projected variation from quotient (April 2023)</b>
Barwon	-5.42	-7.45
Cabramatta	+6.65	+2.37
Castle Hill	+5.91	+3.23
Heffron	-9.46	-3.15
Hornsby	+5.11	+2.27
Kellyville (formerly Baulkham Hills)	-7.51	-1.95
Leppington (new electoral district)	-9.77	+1.73
Londonderry	-8.10	-2.72
Parramatta	-8.16	+1.56
Riverstone	-9.41	+1.71
Winston Hills (formerly Seven Hills)	+7.27	+3.79

49. The full details of variances from quotient of existing electoral districts are listed in [Appendix 1](#).

### **Future variations from quotient**

50. As noted above,<sup>12</sup> section 21(2) of the Electoral Act also requires that the redistribution process takes into consideration 'relevant future trends', by calculating the projected number of electors at the relevant future time, which is 17 April 2023, i.e., four years after the return of the writs for the 2019 State General Election.

---

<sup>12</sup> See pars 10 and 11.

51. On the electoral districts proposed by the Redistribution Panel, there are only two that have projected variations from the quotient of more than five percent in 2023, namely **Barwon** at -7.45% and **Cootamundra** at -6.28%.
52. The full details of variances from quotient of the Redistribution Panel's proposed electoral districts are listed in [Appendix 2](#)

### **Potential demographic impact of COVID-19**

53. The potential impact of COVID-19 is something which the Redistribution Panel considered in making the draft determination. The Redistribution Panel understands that, at this time, any research and analysis into the demographic impact of the pandemic in NSW is inevitably preliminary in nature. On this point, the Redistribution Panel notes that its demographer .id has publicly released some updating of forecasts, in which, for example, the observation is made that net overseas migration will be 'dramatically altered in the next two to three years', due to the COVID-19 pandemic.<sup>13</sup> The Panel will continue to monitor this issue.

---

<sup>13</sup> See .id, *What impact will COVID-19 have on Australia's future population?* <https://publications.id.com.au/covid-19-the-local-impact/forecast-australia-2031/>

## Key proposals in the draft determination

### Abolition

54. The electoral district of **Lakemba** is abolished.

### Creation

55. The electoral district of **Leppington** is created.

### Re-naming

56. The following five electoral districts are re-named:

- **Badgerys Creek** – formerly **Mulgoa**
- **Kellyville** – formerly **Baulkham Hills**
- **St Ives** – formerly **Davidson**
- **Wahroonga** – formerly **Ku-ring-gai**
- **Winston Hills** – formerly **Seven Hills**.

### No change proposed

57. Apart from minor adjustments to district boundaries for improved cadastral alignment, the Redistribution Panel is proposing no changes be made to the boundaries of the electoral districts of **Balmain, Barwon, Bega, Coffs Harbour, Cronulla, Kiama, Pittwater, South Coast, Terrigal and Tweed**.

58. In addition, the only changes proposed to the electoral districts of **Orange, Port Stephens**, and **Wagga Wagga** are slight boundary adjustments with minimal enrolment transfers.

## Overview of proposals

59. The overview of each NSW region and Sydney division commences with a snapshot of the voter projections, as set out in the Voter Trends Report. While this draft determination is particularly focussed on the current variations from quotient, and those projected to be applicable at the 2023 State General Election, .id's projections extend over the ten-year period of 2019-2029.

### Far West and Riverina-Murray

60. Little elector growth is expected in the western half of NSW, with the greatest decreases expected in the Riverina and along the Murray. Elector growth that does occur is expected to be focused upon the regional centres of Wagga Wagga and Albury, with some gains expected in Moama and Corowa.<sup>14</sup>

61. The Redistribution Panel proposes no enrolment change to the electoral district of **Barwon**, and only minimal adjustment to the boundaries of the electoral district of **Wagga Wagga**.

62. In accordance with its approach to making electoral district and LGA boundaries contiguous where possible in rural and regional NSW, the Redistribution Panel proposes to transfer that part of Murrumbidgee LGA currently within the electoral district of **Albury** (the former Jerilderie Shire Council) to the electoral district of **Murray**.

63. Similarly, the Redistribution Panel proposes to transfer that part of Hilltops LGA currently in the electoral district of **Goulburn** (Boorowa and surrounds – the former Boorowa Council) into the electoral district of **Cootamundra**.

### Central West

64. The most significant elector gains forecast in the Central West are for the suburbs of the cities of Orange and Bathurst, with strong rates of increase also expected in Dubbo and surrounds, as well as in Parkes and Mudgee. This is expected to consist of growth in the rural hinterlands, with many people 'choosing a rural residential lifestyle on the edge of town, rather than in suburban estates'.<sup>15</sup>

65. The Redistribution Panel proposes slight changes to the boundaries of the electoral district of **Orange**.

66. The Redistribution Panel proposes to move the northern boundary of the electoral district of **Bathurst** further northwards into the electoral district of **Upper Hunter**, to include part of the Mid-Western Regional LGA, namely the localities of Bylong, Nullo Mountain, Coxs Creek, Lee Creek and surrounds.

---

<sup>14</sup> .id, Voter Trends Report, 28 April 2020, p 37.

<sup>15</sup> .id, Voter Trends Report, 28 April 2020, p 35.

67. The Redistribution Panel proposes to transfer to the electoral district of **Dubbo** part of the Mid-Western Regional LGA, namely, the localities of Ulan, Cooks Gap and Wollar, plus the surrounding localities, from the electoral district of **Upper Hunter**.

### New England-North West

68. Tamworth is anticipated to be the major growth centre for this inland area. The regional centres of Armidale, Inverell and Gunnedah are also expected to grow in elector population to 2029, albeit at lower rates than in Tamworth.<sup>16</sup>
69. The Redistribution Panel proposes to transfer to the electoral district of **Northern Tablelands** all of Walcha LGA from the electoral district of Tamworth.
70. The Redistribution Panel proposes to transfer to the electoral district of **Tamworth** all of the Liverpool Plains LGA from the electoral district of **Upper Hunter**.

### North Coast

71. For much of the North Coast, there is a relatively consistent growth outlook, with all areas 'expected to increase and the largest gains expected along the coast and in the larger inland centres such as Lismore and Casino'.<sup>17</sup> Elector numbers in most coastal areas are expected to increase, driven by a combination of retirees and families, many of whom have moved from metropolitan Sydney.
72. The Redistribution Panel proposes no changes to the electoral district of **Coffs Harbour**, and only slight adjustments to the boundaries of the electoral district of **Tweed**.
73. The Redistribution Panel proposes to transfer part of the locality of North Woodburn (part of Lismore LGA) from the electoral district of **Lismore** to the electoral district of **Clarence**.
74. The Redistribution Panel proposes that the eastern boundary of the electoral district of **Lismore** reverts back to the pre-2013 redistribution boundary location. Accordingly, part of Byron LGA (the localities of Eureka, Federal, Huonbrook, Goonengerry, part of Wilsons Creek and surrounds) is transferred from the electoral district of **Ballina** to the electoral district of **Lismore**.
75. Having regard to its current variance above quotient (+5.92%), the Redistribution Panel proposes to transfer from the electoral district of **Port Macquarie**:
- (i) the localities of Telegraph Point, The Hatch, Blackmans Point, and King Creek to the electoral district of **Oxley**; and

---

<sup>16</sup> .id, Voter Trends Report, 28 April 2020, p 33.

<sup>17</sup> .id, Voter Trends Report, 28 April 2020, p 35.

(ii) the localities of Lansdowne and Upper Lansdowne to the electoral district of **Myall Lakes**.

76. The Redistribution Panel proposes to realign a small section of the boundary between the electoral districts of **Myall Lakes** and **Upper Hunter** to follow Belbora Creek Road at the northern end of Belbora.

77. The Redistribution Panel proposes no other changes to the electoral districts of **Myall Lakes** and **Oxley**.

### Lord Howe Island

78. Suggestions and comments were lodged in relation to transferring Lord Howe Island from the electoral district of **Port Macquarie** to that of **Sydney**, reflecting both the practicalities of contemporary travel, and the electoral arrangements at the federal level.<sup>18</sup> The Redistribution Panel notes that QantasLink offers year-round scheduled services to Lord Howe Island, with flights departing from Sydney on most days. In contrast, QantasLink offers only a seasonal weekly service between Port Macquarie and Lord Howe Island from February to June, and September to December.

79. As it seems that constituents flying from Lord Howe Island to meet with their Member of Parliament would need to stay at least overnight in Sydney, the Redistribution Panel proposes that Lord Howe Island be transferred from the electoral district of **Port Macquarie** to the electoral district of **Sydney**.

### Hunter

80. Most areas in the Hunter are likely to increase in electors; the areas around Maitland, in particular, are expected to have substantial increases between now and 2029. .id notes that areas around Port Stephens within the Newcastle commuter belt are attractive areas for retirees, so that much elector growth in these areas 'will be driven by older adults and those who will service this ageing population'.<sup>19</sup>

81. The Redistribution Panel proposes slight changes to the boundaries of the electoral district of **Port Stephens**.

82. The Redistribution Panel proposes to transfer into the electoral district of **Upper Hunter** from the electoral district of **Cessnock**:

- (i) part of Singleton LGA (the localities of Mount Thorley, Milbrodale, Broke, Howes Valley and surrounds); and
- (ii) part of Cessnock LGA (the suburb of East Branxton and part of Branxton).

---

<sup>18</sup> There were 230 votes cast on Lord Howe Island for the electoral district of Port Macquarie in the 2019 State General Election: [https://pastvtr.elections.nsw.gov.au/SG1901/LA/Port-Macquarie/cc/fp\\_summary](https://pastvtr.elections.nsw.gov.au/SG1901/LA/Port-Macquarie/cc/fp_summary)

<sup>19</sup> .id, Voter Trends Report, 28 April 2020, p 32.

83. The Redistribution Panel proposes to transfer to the electoral district of **Upper Hunter** all that part of Maitland LGA north of the Hunter River, from the electoral district of **Maitland**.
84. As noted above,<sup>20</sup> The Redistribution Panel proposes to realign a small section of the boundary between the electoral districts of **Myall Lakes** and **Upper Hunter** to follow Belbora Creek Road at the northern end of Belbora.

### **Newcastle and Central Coast**

85. There is considerable elector growth forecast for the Central Coast between 2019 and 2029. The increases are due either to new greenfield subdivisions, or to high-density development in and around the major commercial centres.<sup>21</sup> There is elector growth forecast for nearly all areas in the Newcastle and Lake Macquarie Region from 2019 to 2029.
86. Despite the forecast growth mentioned above, this pattern is variable within this region, with a significant amount of the growth occurring in the electoral districts of **Lake Macquarie** and **Wyong**. Other electoral districts, such as **Gosford** and **Terrigal** are relatively more stable, while **Charlestown** is projected to fall further below quotient.
87. The Redistribution Panel proposes no changes to the electoral district of **Terrigal**.
88. The Redistribution Panel proposes the following changes to the electoral district of **Charlestown**:
- (i) Transfer the suburb of Redhead to the electoral district of **Swansea**;
  - (ii) Transfer the suburbs of part Garden Suburb, Cardiff & Cardiff Heights to the electoral district of **Wallsend**; and
  - (iii) Transfer the suburbs of Warners Bay, Cardiff South, and part of Cardiff from the electoral district of **Lake Macquarie**.
89. As the suburb of New Lambton is currently divided among the electoral districts of **Charlestown**, **Newcastle** and **Wallsend**, the Redistribution Panel proposes to:
- (i) transfer to the electoral district of **Charlestown** part of the suburb from each of the electoral districts of **Newcastle** and **Wallsend**; and
  - (ii) transfer part of the suburb from the electoral district of **Newcastle** to the electoral district of **Wallsend**.
90. Therefore, electors will only be divided between the electoral districts of **Charlestown** and **Wallsend**, although McDonald Jones Stadium and the

---

<sup>20</sup> See par 76.

<sup>21</sup> .id, Voter Trends Report, 28 April 2020, p 30.

Newcastle Harness Racing Club will remain located in the electoral district of **Newcastle**.

91. The Redistribution Panel proposes to transfer to the electoral district of **Gosford** part of Central Coast LGA, namely that part of Kulnura currently within the electoral district of **Wyong**. This results in uniting the locality of Kulnura in the one electoral district.
92. As noted above,<sup>22</sup> the Redistribution Panel proposes to transfer the suburbs of Warners Bay, Cardiff South, and part of Cardiff from the electoral district of **Lake Macquarie** to the electoral district of **Charlestown**.
93. The Redistribution Panel proposes to transfer to the electoral district of **The Entrance** part of the suburb of Berkeley Vale from the electoral district of **Wyong**.

### South Coast and Tablelands

94. Elector growth in the South Coast and Tablelands is focused in those areas adjacent to Canberra and along the coast. The largest increase of electors between 2019 and 2029 is expected to be in Ulladulla and the Queanbeyan Region, followed by Yass Region, Narooma – Bermagui, and Batemans Bay.<sup>23</sup>
95. The Redistribution Panel proposes no changes to the electoral districts of **Bega, Kiama and South Coast**.
96. The Redistribution Panel proposes the following changes to the electoral district of **Goulburn**:
  - (i) Transfer part of Hilltops LGA (Boorowa and surrounds – the former Boorowa Council) to the electoral district of **Cootamundra**; and
  - (ii) Transfer parts of Queanbeyan-Palerang Regional Council (Collector, Currawang, part of Tarago, and part of Lake George) from the electoral district of **Monaro**.

### Illawarra-Shoalhaven

97. There is elector growth forecast in many areas of the Illawarra, Southern Highlands, and Shoalhaven Regions between 2019 and 2029. The largest gains are expected in areas on the south-western edge of Wollongong, in the suburbs or localities of Albion Park - Macquarie Pass, Horsley - Kembla Grange, and Dapto – Avondale.<sup>24</sup>
98. The Redistribution Panel proposes the following changes to the electoral district of **Heathcote**:
  - (i) Transfer part of the suburbs of Menai and Bangor to the electoral district of **Holsworthy**;

---

<sup>22</sup> See par 88.

<sup>23</sup> .id, Voter Trends Report, 28 April 2020, p 38.

<sup>24</sup> .id, Voter Trends Report, 28 April 2020, p 30.

- (ii) Transfer part of the suburbs of Menai and Bangor to the electoral district of **Miranda**;
- (iii) Transfer the suburbs of Thirroul, Austinmer, part Bulli and Coledale from the electoral district of **Keira**; and
- (iv) Transfer part of the suburb of Kirrawee from the electoral district of **Miranda**.

99. The Redistribution Panel proposes the following changes to the electoral district of **Keira**:

- (i) Transfer the suburb of east Corrimal to the electoral district of **Wollongong**;
- (ii) Transfer the suburbs of Cordeaux, Avon, Dombarton and Kembla Grange from the electoral district of **Shellharbour**; and
- (iii) Transfer the suburbs of Cordeaux Heights, part of Farmborough Heights, part of Kembla Heights, part of Mount Kembla and part of Unanderra from the electoral district of **Wollongong**.

100. In addition to the above, the Redistribution Panel proposes to transfer from the electoral district of **Shellharbour** the suburbs and localities of Kanahooka and Brownsville to the electoral district of **Wollongong**.

### Outer Western Sydney

101. Substantial elector growth in new greenfield areas to the north and particularly to the south of the Great Western Highway corridor is expected in Outer Western Sydney. In contrast, elector numbers in the Lower Blue Mountains are decreasing, with only moderate increases expected in the Upper Blue Mountains.<sup>25</sup>

102. The Redistribution Panel proposes that the suburbs of Glenbrook and Lapstone be transferred to the electoral district of **Blue Mountains** from the electoral district of **Penrith**. The boundaries of the electoral district of **Blue Mountains** and the Blue Mountains LGA would then be contiguous.

103. At +17.3%, (as at 23 March 2020), the electoral district of **Londonderry** is one of the most over-quotient electoral districts in NSW. The Redistribution Panel proposes the following changes to the electoral district of **Londonderry**:

- (i) Transfer the suburbs of Whalan, Tregear, part of Emerton, part of Lethbridge Park and part of Mount Druitt to the electoral district of **Mount Druitt**;
- (ii) Transfer the suburbs of Claremont Meadows, part of Orchard Hills, part of Caddens, part of Kingswood, and Cambridge Park to the electoral district of **Penrith**;

---

<sup>25</sup> .id, Voter Trends Report, 28 April 2020, p 28.

- (iii) Transfer part of the suburbs of Marsden Park, Schofields and Riverstone from the electoral district of **Riverstone**; and
  - (iv) Transfer part of the suburbs of Cranebrook and Castlereagh from the electoral district of **Penrith**.
104. As noted above,<sup>26</sup> the Redistribution Panel proposes the following changes to the electoral district of **Penrith**:
- (i) Transfer part of the suburbs of Cranebrook and Castlereagh to the electoral district of **Londonderry**;
  - (ii) Transfer the suburbs of Glenbrook and Lapstone to the electoral district of **Blue Mountains**; and
  - (iii) Transfer the suburbs of Claremont Meadows, part of Orchard Hills, part of Caddens, part of Kingswood, and Cambridge Park from the electoral district of **Londonderry**.

### North Western Sydney

105. North Western Sydney contains the North-Western Growth Corridor of Sydney. These areas are growing strongly due to high rates of greenfield development in suburbs such as Rouse Hill, Kellyville, Marsden Park, Riverstone, Box Hill and Schofields.<sup>27</sup>
106. The Redistribution Panel proposes the following changes to the electoral district of **Castle Hill**:
- (i) Transfer the suburbs of Rouse Hill, North Kellyville, Beaumont Hills, Kellyville and part of Castle Hill to the electoral district of **Kellyville** (formerly **Baulkham Hills**);
  - (ii) Transfer part of the suburbs of Baulkham Hills, Castle Hill and West Pennant Hills from the current electoral district of **Baulkham Hills**;
  - (iii) Transfer part of the suburbs of Kenthurst and Middle Dural from the electoral district of **Hawkesbury**; and
  - (iv) Transfer part of the suburb of Castle Hill from the electoral district of **Epping**.
107. The Redistribution Panel proposes the following changes to the electoral district of **Hawkesbury**:
- (i) Transfer the suburbs of Lughtondale, Singletons Mill, Canoelands, Forest Glen, part of Wisemans Ferry, part of Glenorie and part of Middle Dural to the electoral district of **Hornsby**;

---

<sup>26</sup> See pars 102 and 103.

<sup>27</sup> .id, Voter Trends Report, 28 April 2020, p 27.

- (ii) Transfer part of the suburbs of Kenthurst and Middle Dural to the electoral district of **Castle Hill**; and
  - (iii) Transfer the suburbs of Box Hill and Nelson from the electoral district of **Castle Hill**.
108. Having regard to the significant boundary changes involved, the Redistribution Panel proposes to rename the electoral district of **Baulkham Hills** as **Kellyville**. The Redistribution Panel considers that the name **Kellyville** better reflects the population centre in the electoral district.
109. The Redistribution Panel proposes the following changes to the electoral district of **Kellyville** (formerly **Baulkham Hills**):
- (i) Transfer part of the suburbs of Baulkham Hills, Castle Hill and West Pennant Hills to the electoral district of **Castle Hill**;
  - (ii) Transfer part of the suburbs of North Rocks and Carlingford to the electoral district of **Epping**.
  - (iii) Transfer the suburbs of Rouse Hill, North Kellyville, Beaumont Hills, Kellyville and part of Castle Hill from the electoral district of **Castle Hill**.
110. The electoral district of **Riverstone** is currently over quotient by 10.82%, and projected to increase to 21.96% over quotient by 2023. The Redistribution Panel proposes to transfer from the electoral district of **Riverstone**:
- (i) the suburb of Glenwood to the electoral district of **Winston Hills** (formerly **Seven Hills**); and
  - (ii) part of the suburbs and localities of Marsden Park, Schofields and Riverstone to the electoral district of **Londonderry**.

### South Western Sydney

111. South Western Sydney is expected to be one of the key elector growth areas in NSW from 2019 to 2029: the suburb and locality of Cobbitty-Leppington is forecast to increase by almost 30,000 additional voters over this period.<sup>28</sup> However, areas such as Camden, which have been growing strongly, are expected to slow, as residential development potential is exhausted. In addition, the population of some of the older areas around Campbelltown is actually expected to decrease.<sup>29</sup> Relevant LGAs are referenced for South Western Sydney, having regard to the complexity of the proposed changes to electoral district boundaries.

---

<sup>28</sup> .id, Voter Trends Report, 28 April 2020, p 24.

<sup>29</sup> .id, Voter Trends Report, 28 April 2020, p 24.

112. In order to accommodate this strong growth, the Redistribution Panel proposes the creation of a new electoral district in South Western Sydney, to be named **Leppington**.
113. The Redistribution Panel proposes that the proposed electoral district of **Leppington** is to consist of the following suburbs:
- (i) part of Camden LGA (part of Catherine Field, part of Leppington, part of Rossmore, and part of Oran Park) from the electoral district of **Camden**;
  - (ii) part of Liverpool City LGA (part of Rossmore, part of Austral, part of West Hoxton) from the electoral district of **Camden**;
  - (iii) part of Liverpool City LGA (part of Kemps Creek, part of Austral, part of West Hoxton, part of Cecil Park, part of Cecil Hills, and Middleton Grange) from the current electoral district of **Mulgoa**;
  - (iv) part of Liverpool City LGA (part of West Hoxton, Carnes Hill, Horningsea Park, part of Hoxton Park, and part of Hinchinbrook) from the electoral district of **Liverpool**;
  - (v) part of Liverpool City LGA (part of Prestons) from the electoral district of **Holsworthy**;
  - (vi) part of Liverpool City LGA (part of Leppington) from the electoral district of **Macquarie Fields**;
  - (vii) part of Campbelltown City LGA (Eschol Park, Kearns, Raby, Varroville, Denham Court and part of Eagle Vale) from the electoral district of **Macquarie Fields**;
  - (viii) part of Campbelltown City LGA (part of Eagle Vale) from the electoral district of **Campbelltown**; and
  - (ix) part of Camden LGA (part of Leppington) from the electoral district of **Macquarie Fields**.
114. Having regard to the boundary changes required by the variances from quotient in this area, the Redistribution Panel also proposes to rename the electoral district of **Mulgoa** as **Badgerys Creek**. The Redistribution Panel considers that the name **Badgerys Creek** better reflects the population centre in the district, and in future will be associated by electors with the new Sydney Airport.<sup>30</sup>
115. The Redistribution Panel proposes the following changes to the electoral district of **Badgerys Creek** (formerly **Mulgoa**):

---

<sup>30</sup> Badgerys Creek was an electoral district from 1991 - when it replaced Minchinbury (1988-91) - until 1999, when it was replaced in turn by Mulgoa.

- (i) Transfer part of Liverpool City LGA (part of Kemps Creek, part of Austral, part of West Hoxton, part of Cecil Park, part of Cecil Hills, Middleton Grange) to the proposed electoral district of **Leppington**;
  - (ii) Transfer part of Liverpool City LGA (part of Cecil Hills, Elizabeth Hills, Len Waters Estate) to the electoral district of **Liverpool**;
  - (iii) Transfer part of Fairfield City LGA (part of Abbotsbury) to the electoral district of **Cabramatta**;
  - (iv) Transfer part of Camden Council LGA (part of Cobbitty, part of Oran Park, part of Bringelly, part of Catherine Park) from the electoral district of **Camden**; and
  - (v) Transfer part of Liverpool City LGA (part of Wallacia, Greendale, part of Bringelly, part of Luddenham, part of Badgerys Creek) from the electoral district of **Camden**.
116. The electoral district of **Camden** is currently the highest over quotient in NSW (+31.8%). The Redistribution Panel proposes the following changes to the electoral district of **Camden**:
- (i) Transfer part of Camden Council LGA (part of Catherine Field, part of Leppington, part of Rossmore, part of Oran Park) to the proposed electoral district of **Leppington**;
  - (ii) Transfer part of Liverpool City LGA (part of Rossmore, part of Austral, part of West Hoxton) to the proposed electoral district of **Leppington**;
  - (iii) Transfer part of Camden Council LGA (part of Cobbitty, Oran Park, part of Bringelly, part of Catherine Field ) to the electoral district of **Badgerys Creek** (formerly **Mulgoa**);
  - (iv) Transfer part of Camden Council LGA (grounds of St Gregory's College, Gregory Hills) to the electoral district of **Campbelltown** - the boundary between the electoral districts of **Campbelltown** and **Camden** is accordingly adjusted to the property boundary of St Gregory's College, instead of to the LGA boundary; and
  - (v) Transfer part of Campbelltown City LGA (part of Mount Annan) from the electoral district of **Campbelltown**.
117. The Redistribution Panel also proposes to adjust the boundary between the electoral districts of **Camden** and **Campbelltown** in order to include all of the Australian Botanic Garden in the electoral district of **Camden**.
118. The Redistribution Panel proposes the following changes to the electoral district of **Campbelltown**:
- (i) Transfer part of the suburb of Eagle Vale to the proposed electoral district of **Leppington**;

- (ii) Transfer part of Wollondilly LGA (Appin and part of Cataract) from the electoral district of **Wollondilly**; and
  - (iii) Transfer part of the suburbs of Leumeah and Kentlyn from the electoral district of **Macquarie Fields**.
119. The Redistribution Panel proposes the following changes to the electoral district of **Holsworthy**:
- (i) Transfer part of Liverpool City LGA (part of Prestons) to the proposed new electoral district of **Leppington**;
  - (ii) Transfer part of Liverpool City LGA (part of Casula) to the electoral district of **Macquarie Fields**;
  - (iii) Transfer parts of the suburbs of Menai and Bangor from the electoral district of **Heathcote**;
  - (iv) Transfer part of the suburb of Alford's Point from the electoral district of **Miranda**; and
  - (v) Transfer part of Liverpool City LGA (part of Liverpool) from the electoral district of **Liverpool**.
120. The Redistribution Panel proposes the following changes to the electoral district of **Macquarie Fields**:
- (i) Transfer part of the suburbs of Leumeah and Kentlyn to the electoral district of **Campbelltown**;
  - (ii) Transfer part of Campbelltown City LGA (part of Eagle Vale, Eschol Park, Kearns, Raby, Varroville, Denham Court) to the proposed electoral district of **Leppington**;
  - (iii) Transfer part of Liverpool City LGA (part of Leppington) to the proposed electoral district of **Leppington**;
  - (iv) Transfer part of Camden LGA (part of Leppington) to the proposed electoral district of **Leppington**; and
  - (v) Transfer part of Liverpool City LGA (part of Casula) from the electoral district of **Holsworthy**.
121. As noted above,<sup>31</sup> the Panel proposes to transfer from the electoral district of **Wollondilly** part of the Wollondilly LGA (Appin and part of Cataract) to the electoral district of **Campbelltown**.

### **Middle Western Sydney**

122. The prospects of elector growth between 2019 and 2029 in established Middle Western suburbs of Sydney are highly variable. While major centres such as Parramatta, Bankstown, and Liverpool are expected to increase

---

<sup>31</sup> See par 118.

strongly, other suburbs are expected to decline, or be much more stable in elector numbers.<sup>32</sup>

123. Having regard to the need to balance such differing patterns, the Redistribution Panel proposes to abolish the electoral district of **Lakemba**, and subsume much of it into a redrawn electoral district of **Bankstown**. The Redistribution Panel proposes the following changes to the electoral district of **Bankstown**:

- (i) Transfer the suburbs of Chullora, Greenacre, Mount Lewis, Punchbowl, part of Wiley Park, part of Roselands, part of Riverwood, part of Narwee, part of Beverly Hills and part of Bankstown from the current electoral district of **Lakemba** (abolished);
- (ii) Transfer the suburbs of part of Riverwood, Narwee and Beverly Hills to the electoral district of **Oatley**;
- (iii) Transfer the suburbs of part of Georges Hall, part of Bass Hill, Lansdowne, part of Villawood and part of Chester Hill to the electoral district of **Fairfield**;
- (iv) Transfer the suburbs of part of Yagoona, Birrong, Potts Hill, Sefton, part of Bass Hill, part of Chester Hill and part of Regents Park to the electoral district of **Auburn**; and
- (v) Transfer part of the suburbs of Yagoona, Bass Hill and Bankstown to the electoral district of **East Hills**.

124. The Redistribution Panel proposes the following changes to the electoral district of **Auburn**:

- (i) Transfer the suburbs of Silverwater, Newington, Sydney Olympic Park, Wentworth Point, and part of Lidcombe to the electoral district of **Parramatta**;
- (ii) Transfer part of the suburbs of South Granville, Merrylands, Guildford and Chester Hill to the electoral district of **Granville**; and
- (iii) Transfer the suburbs of part of Yagoona, Birrong, Potts Hill, Sefton, part of Bass Hill, part of Chester Hill and part of Regents Park from the electoral district of **Bankstown**.

125. The Redistribution Panel proposes the following changes to the electoral district of **Blacktown**:

- (i) Transfer the suburbs of part of Blacktown, part of Lalor Park, and Seven Hills to the electoral district of **Winston Hills** (formerly **Seven Hills**);
- (ii) Transfer the suburbs of part of Rooty Hill, Glendenning, Dean Park and Colebee from the electoral district of **Mount Drutt**; and

---

<sup>32</sup> .id, Voter Trends Report, 28 April 2020, p 25.

- (iii) Transfer the suburbs of part of Blacktown, Arndell Park, Huntingwood, part of Eastern Creek and part of Bungarribee from the electoral district of **Prospect**.<sup>33</sup>
126. The Redistribution Panel also proposes that the boundary between the electoral districts of **Blacktown** and **Mount Druitt** is provided with more definition by being moved from Wallgrove Rd to the M7 motorway at the southern end of these electoral districts.
127. The Redistribution Panel proposes the following changes to the electoral district of **Cabramatta**:
- (i) Transfer the suburbs of Bonnyrigg Heights, part of Mt Pritchard and part of Bonnyrigg to the electoral district of **Liverpool**;
  - (ii) Transfer part of the suburb of Canley Vale from the electoral district of **Fairfield**;
  - (iii) Transfer the suburb of Bossley Park from the electoral district of **Prospect**; and
  - (iv) Transfer part of the suburb of Abbotsbury from the electoral district of **Badgerys Creek** (formerly **Mulgoa**).
128. As noted above,<sup>34</sup> the Redistribution Panel proposes to transfer to the electoral district of **East Hills** part of the suburbs of Yagoona, Bass Hill and Bankstown from the electoral district of **Bankstown**.
129. The Redistribution Panel proposes the following changes to the electoral district of **Fairfield**:
- (i) Transfer the suburbs of part of Yennora, part of Guildford, Guildford West, Woodpark and part of Smithfield to the electoral district of **Granville**;
  - (ii) Transfer the suburbs of Georges Hall, part of Bass Hill, Lansdowne, Villawood, and part of Chester Hill from the electoral district of **Bankstown**; and
  - (iii) Transfer part of the suburb of Canley Vale to the electoral district of **Cabramatta**.
130. The Redistribution Panel proposes the following changes to the electoral district of **Granville**:
- (i) Transfer the suburbs of Clyde, part of Granville, part of Parramatta, and part of Mays Hill to the electoral district of **Parramatta**;

---

<sup>33</sup> The Redistribution Panel notes that six new suburbs in the Blacktown LGA were gazetted on 6 November 2020: [https://gazette.legislation.nsw.gov.au/so/download.w3p?id=Gazette\\_2020\\_2020-306.pdf](https://gazette.legislation.nsw.gov.au/so/download.w3p?id=Gazette_2020_2020-306.pdf). These changes were not made in time to be referenced in the draft determination, but will be considered in the Redistribution Panel's preparation of the final determination of names and boundaries.

<sup>34</sup> See par 124.

- (ii) Transfer part of the suburbs of Greystanes, South Wentworthville and Wentworthville to the electoral district of **Prospect**;
  - (iii) Transfer the suburbs of South Granville, part of Merrylands, part of Guildford and part of Chester Hill from the electoral district of **Auburn**; and
  - (iv) Transfer the suburbs of part of Yennora, part of Guildford, Guildford West, Woodpark, and part of Smithfield from the electoral district of **Fairfield**.
131. The Redistribution Panel proposes the following changes to the electoral district of **Liverpool**:
- (i) Transfer the suburbs of part of West Hoxton, Carnes Hill, Horningsea Park, part of Hoxton Park and part of Hinchinbrook to the proposed electoral district of **Leppington**;
  - (ii) Transfer part of the suburb of Liverpool to the electoral district of **Holsworthy**;
  - (iii) Transfer the suburbs of Bonnyrigg Heights, part of Mount Pritchard and part of Bonnyrigg from the electoral district of **Cabramatta**;
  - (iv) Transfer the suburbs of part of Cecil Hills, Elizabeth Hills and Len Waters Estate from the electoral district of **Badgerys Creek** (formerly **Mulgoa**).
132. The Redistribution Panel proposes the following changes to the electoral district of **Mount Druitt**:
- (i) Transfer the suburbs of part of Rooty Hill, Glendenning, Dean Park and Colebee to the electoral district of **Blacktown**; and
  - (ii) Transfer the suburbs of Whalan, Tregear, part of Emerton, part of Lethbridge Park and part of Mount Druitt from the electoral district of **Londonderry**.
133. The Redistribution Panel proposes the following changes to the electoral district of **Parramatta**:
- (i) Transfer the suburbs of Oatlands, Telopea, Dundas Valley, part of Dundas, part of North Rocks, part of Carlingford, part of North Parramatta to the electoral district of **Epping**;
  - (ii) Transfer the suburbs of Silverwater, Newington, Sydney Olympic Park, Wentworth Point, and part of Lidcombe from the electoral district of **Auburn**;
  - (iii) Transfer the suburbs of Clyde, part of Granville, part of Parramatta, and part of Mays Hill from the electoral district of **Granville**; and

- (iv) Transfer part of the suburb of Westmead from the electoral district of **Winston Hills** (formerly **Seven Hills**).
134. The Redistribution Panel proposes the following changes to the electoral district of **Prospect**:
- (i) Transfer the suburb of Bossley Park to the electoral district of **Cabramatta**;
  - (ii) Transfer the suburbs of part of Blacktown, Arndell Park, Huntingwood, part of Eastern Creek and part of Bungarabee to the electoral district of **Blacktown**;
  - (iii) Transfer part of the suburbs of Greystanes, Wentworthville and South Wentworthville from the electoral district of **Granville**; and
  - (iv) Transfer part of the suburbs of Seven Hills and Toongabbie from the electoral district of **Winston Hills** (formerly **Seven Hills**).
135. Having regard to the significant boundary changes involved, the Redistribution Panel proposes to rename the electoral district of **Seven Hills** as **Winston Hills**. The Redistribution Panel considers that the name **Winston Hills** better reflects the population centre in the new electoral district's proposed boundaries.
136. The Redistribution Panel proposes the following changes to the electoral district of **Winston Hills** (formerly **Seven Hills**):
- (i) Transfer part of the suburb of Westmead to the electoral district of **Parramatta**;
  - (ii) Transfer part of the suburbs of Seven Hills and Toongabbie to the electoral district of **Prospect**;
  - (iii) Transfer the suburb of Glenwood from the electoral district of **Riverstone**; and
  - (iv) Transfer part of the suburbs of Blacktown, Lalor Park, and Seven Hills from the electoral district of **Blacktown**.

### **Sydney - Inner and Eastern Districts**

137. There are strong contrasts in projected elector change in these Sydney electoral districts between 2019 and 2029, with strong growth in areas that continue to convert from industrial and warehousing to high-density housing, such as Waterloo and Mascot. By contrast, areas with a stable dwelling stock of relatively low-density residential form are expected to have a fall in elector numbers. In between these cases, growth in dwellings is expected to be

moderate, but elector share is expected to fall, e.g., Coogee-Clovelly and Kingsford.<sup>35</sup>

138. However, *population* growth in Inner Sydney is much higher than *elector* growth, as many areas have a low elector share, with large numbers of non-citizens, especially tertiary students.<sup>36</sup> Thus, suburbs such as Potts Point - Woolloomooloo, Balmain, and Newtown - Camperdown - Darlington are expected to experience a loss of electors.
139. The Redistribution Panel proposes no changes to the electoral district of **Balmain**.
140. The Redistribution Panel proposes the following changes to the electoral district of **Coogee**:
- (i) Transfer part of the suburb of South Coogee to the electoral district of **Maroubra**; and
  - (ii) Transfer part of the suburbs of Randwick, Kingsford and Kensington from the electoral district of **Heffron**, using Anzac Parade as the electoral district boundary.
141. The Redistribution Panel proposes to transfer to the electoral district of **Drummoyne** the suburbs of North Strathfield, part of Homebush, and part of Concord West from the electoral district of **Strathfield**.
142. Unlike its surrounding electoral districts, the electoral district of **Heffron** is currently considerably over quotient (+7.61%), due to the ongoing local conversion to high-density housing referred to above.<sup>37</sup> The Redistribution Panel proposes the following changes to the electoral district of **Heffron**:
- (i) Transfer part of the suburbs of Randwick, Kingsford and Kensington to the electoral district of **Coogee**, using Anzac Parade as the boundary;
  - (ii) Transfer the suburbs of Centennial Park and Moore Park to the electoral district of **Sydney**;
  - (iii) Transfer the suburbs of Erskineville and part of Alexandria to the electoral district of **Newtown**; and
  - (iv) Transfer part of the suburb of Waterloo from the electoral district of **Newtown**.
143. As noted above,<sup>38</sup> the Redistribution Panel proposes transferring to the electoral district of **Maroubra** part of the suburb of South Coogee from the electoral district of **Coogee**.

---

<sup>35</sup> .id, Voter Trends Report, 28 April 2020, p 22.

<sup>36</sup> .id, Voter Trends Report, 28 April 2020, p 22.

<sup>37</sup> See par 137.

<sup>38</sup> See par 140.

144. The Redistribution Panel proposes the following changes to the electoral district of **Newtown**:
- (i) Transfer part of the suburb of Surry Hills to the electoral district of **Sydney**;
  - (ii) Transfer part of the suburb of Waterloo to the electoral district of **Heffron**;
  - (iii) Transfer the suburbs of Erskineville and part of Alexandria from the electoral district of **Heffron**; and
  - (iv) Transfer the suburbs of Lewisham and part of Petersham from the electoral district of **Summer Hill**.
145. The Redistribution Panel proposes the following changes to the electoral district of **Strathfield**:
- (i) Transfer the suburbs of North Strathfield, part of Homebush and part of Concord West to the electoral district of **Drummoyne**; and
  - (ii) Transfer part of the suburbs of Belfield and Campsie from the electoral district of **Canterbury**.
146. The Redistribution Panel proposes the following changes to the electoral district of **Summer Hill**:
- (i) Transfer the suburbs of Lewisham and part of Petersham to the electoral district of **Newtown**; and
  - (ii) Transfer the suburbs of Hurlstone Park and part of Ashbury from the electoral district of **Canterbury**;
147. The Redistribution Panel proposes the following changes to the electoral district of **Sydney**:
- (i) Transfer parts of the suburbs of Edgecliff and Woollahra to the electoral district of **Vaucluse**;
  - (ii) Transfer the suburbs of Centennial Park and Moore Park from the electoral district of **Heffron**; and
  - (iii) Transfer part of the suburb of Surry Hills from the electoral district of **Newtown**.
148. As noted above,<sup>39</sup> the Redistribution Panel proposes transferring Lord Howe Island from the electoral district of **Port Macquarie** to the electoral district of **Sydney**.

---

<sup>39</sup> See par 79.

149. As noted above,<sup>40</sup> the Redistribution Panel proposes transferring parts of the suburbs of Edgecliff and Woollahra to the electoral district of **Vaucluse** from the electoral district of **Sydney**.

### **Sydney – Northern Districts**

150. Elector numbers in most Northern Sydney Districts are expected to increase between 2019 and 2029. The largest increases are associated with the presence of large-scale high and medium density apartment development, with good public transport links. However, this pattern is variable. Thus, Cherrybrook is expected to decrease notably, reflecting ‘the maturity of the population (lots of adult children expected to leave home over the next ten years) and only moderate rates of dwelling growth during that time’.<sup>41</sup>

151. The Redistribution Panel proposes the following changes to the electoral district of **Epping**:

- (i) Transfer the suburbs of Cherrybrook, part of Pennant Hills, part of West Pennant Hills and part of Dural to the electoral district of **Hornsby**;
- (ii) Transfer part of the suburb of Castle Hill to the electoral district of **Castle Hill**;
- (iii) Transfer part of the suburbs of Epping, Carlingford, and Eastwood to the electoral district of **Ryde**;
- (iv) Transfer part of the suburb of Epping from the electoral district of **Ryde**;
- (v) Transfer part of the suburbs of North Rocks and Carlingford from the electoral district of **Kellyville** (formerly **Baulkham Hills**); and
- (vi) Transfer the suburbs of Oatlands, Telopea, Dundas Valley, and part of Dundas, North Rocks, Carlingford and North Parramatta from the electoral district of **Parramatta**.

152. The Redistribution Panel proposes the following changes to the electoral district of **Hornsby**:

- (i) Transfer the suburb of Westleigh and part of the suburbs of Waitara, Hornsby, Asquith, Pennant Hills, Thornleigh, Normanhurst and Wahroonga to the electoral district of **Wahroonga** (formerly **Ku-ring-gai**);
- (ii) Transfer the suburb of Cherrybrook, and part of the suburbs of Pennant Hills, West Pennant Hills, and Dural from the electoral district of **Epping**;

---

<sup>40</sup> See par 147.

<sup>41</sup> .id, Voter Trends Report, 28 April 2020, pp 19-20.

- (iii) Transfer the suburbs of Laughtondale, Singletons Mill, Canoelands, Forest Glen, and part of the suburbs of Wisemans Ferry, Glenorie, Middle Dural and Maroota from the electoral district of **Hawkesbury**.
153. The Redistribution Panel proposes the following changes to the electoral district of **Lane Cove**:
- (i) Transfer part of the suburbs of Artarmon and St Leonards to the electoral district of **Willoughby**; and
  - (ii) Transfer part of the suburb of North Ryde from the electoral district of **Ryde**.
154. The Redistribution Panel proposes to transfer to the electoral district of **Manly** part of the suburbs of Dee Why, Allambie Heights and Manly Vale (namely, the University of NSW Manly Vale Campus) from the electoral district of **Wakehurst**.
155. The Redistribution Panel proposes to transfer the suburb of St Leonards from the electoral district of **North Shore** to the electoral district of **Willoughby**.
156. The Redistribution Panel proposes no changes to the electoral district of **Pittwater**, other than to adjust the boundary with the electoral district of **Gosford** in Broken Bay to align with the hydro line or the LGA boundary, as appropriate.
157. As noted above,<sup>42</sup> the Redistribution Panel proposes the following changes to the electoral district of **Ryde**:
- (i) Transfer part of the suburb of Epping to the electoral district of **Epping**;
  - (ii) Transfer part of the suburb of North Ryde to the electoral district of **Lane Cove**; and
  - (iii) Transfer part of the suburbs of Epping, Carlingford, and Eastwood from the electoral district of **Epping**.
158. Having regard to the significant boundary changes involved, the Redistribution Panel proposes to rename the electoral district of **Davidson** as **St Ives**. The Redistribution Panel considers that the name **St Ives** better reflects the population centre in the electoral district's proposed boundaries. The Redistribution Panel proposes the following changes to the electoral district of **St Ives**:
- (i) Transfer part of the suburbs of Forestville (re-joining Forestville in **Wakehurst**), Ingleside, Oxford Falls, Belrose and Terrey Hills to the electoral district of **Wakehurst**;

---

<sup>42</sup> See pars 151 and 153.

- (ii) Transfer the suburbs of North Turramurra, part of Turramurra, part of Gordon, part of Killara (re-joining Gordon and Killara in **St Ives**) from the electoral district of **Wahroonga** (formerly **Ku-ring-gai**); and
- (iii) Transfer the suburb of Castle Cove to the electoral district of **Willoughby**.

159. Having regard to the significant boundary changes involved, the Redistribution Panel proposes to rename the electoral district of **Ku-ring-gai** as **Wahroonga**. The Redistribution Panel considers that the name **Wahroonga** better reflects the population centre in the electoral district's proposed boundaries. As noted above,<sup>43</sup> the Redistribution Panel proposes the following changes to the electoral district of **Wahroonga**:

- (i) Transfer the suburbs of North Turramurra, part of Turramurra, part of Gordon, part of Killara to the electoral district of **St Ives** (formerly **Davidson**), re-joining Gordon and Killara in **St Ives**; and
- (ii) Transfer the suburbs of Westleigh, part of Waitara, part of Hornsby, part of Asquith, part of Wahroonga, part of Pennant Hills, part of Thornleigh and part of Normanhurst from the electoral district of **Hornsby**.

160. As noted above,<sup>44</sup> the Redistribution Panel proposes the following changes to the electoral district of **Wakehurst**:

- (i) Transfer part of the suburbs of Dee Why, Allambie Heights and Manly Vale (namely, the University of NSW Manly Vale Campus) to the electoral district of **Manly**; and
- (ii) Transfer part of the suburbs of Forestville (re-joining Forestville within the electoral district of **Wakehurst**), Ingleside, Oxford Falls, Belrose, and Terrey Hills from the electoral district of **St Ives** (formerly **Davidson**).

161. As noted above,<sup>45</sup> the Redistribution Panel proposes to transfer to the electoral district of **Willoughby**:

- (i) Part of the suburbs of Artarmon and St Leonards from the electoral district of **Lane Cove**;
- (ii) Part of the suburb of St Leonards from the electoral district of **North Shore**; and
- (iii) The suburb of Castle Cove from the electoral district of **St Ives** (formerly **Davidson**).

---

<sup>43</sup> See pars 152 and 158.

<sup>44</sup> See pars 154 and 158.

<sup>45</sup> See pars 153, 155 and 158.

## Sydney - Southern Districts

162. The Southern Districts of Sydney are expected to have lower elector growth than most other parts of Sydney. While growth is expected from increased dwelling densities around major commercial centres such as Rockdale, Kogarah, Sutherland, Miranda and Caringbah, many areas are expected to lose electors. This reflects 'a relatively stagnant dwelling stock, only minimal or moderate growth in adult population, and decreasing voter shares'.<sup>46</sup>
163. The Redistribution Panel proposes the following changes to the electoral district of **Canterbury**:
- (i) Transfer the suburbs of Hurlstone Park and part of Ashbury to the electoral district of **Summer Hill**;
  - (ii) Transfer parts of the suburbs of Belfield and Campsie to the electoral district of **Strathfield**;
  - (iii) Transfer the suburbs of Lakemba, part of Wylie Park and part of Belmore from the electoral district of **Lakemba** (abolished).
164. The Redistribution Panel proposes no changes to the electoral district of **Cronulla**.
165. The electoral district of **Kogarah** is significantly below quotient (-6.6%). The Redistribution Panel therefore proposes to transfer to the electoral district of **Kogarah**:
- (i) Part of the suburb of Kogarah Bay from the electoral district of **Rockdale**; and
  - (ii) Parts of the suburbs of Blakehurst and Kyle Bay from the electoral district of **Oatley**.
166. The Redistribution Panel proposes the following changes to the electoral district of **Miranda**:
- (i) Transfer part of the suburb of Alford's Point to the electoral district of **Holsworthy**;
  - (ii) Transfer part of the suburb of Kirrawee to the electoral district of **Heathcote**; and
  - (iii) Transfer part of the suburbs of Menai and Bangor from the electoral district of **Heathcote**.
167. The electoral district of **Oatley** is almost 5% under quotient (-4.97%). Therefore, the Redistribution Panel proposes the following changes to the electoral district of **Oatley**:

---

<sup>46</sup> .id, Voter Trends Report, 28 April 2020, p 22.

- (i) Transfer part of the suburbs of Blakehurst and Kyle Bay to the electoral district of **Kogarah**; and
- (ii) Transfer to the electoral district of **Oatley** the suburbs of part Riverwood, Narwee and Beverly Hills from the electoral district of **Lakemba** (abolished).

168. As noted above,<sup>47</sup> the Redistribution Panel proposes to transfer part of the suburb of Kogarah Bay from the electoral district of **Rockdale** to the electoral district of **Kogarah**.

The Honourable Arthur Emmett AO QC (Chairperson)

Mr John Schmidt (Electoral Commissioner)

Mrs Narelle Underwood (Surveyor General)

**Redistribution Panel**

<sup>47</sup> See par 165.

## Appendix 1 - Statistical summary of the composition of each existing electoral district

The table below sets out:

- the current number of electors at the base date;
- percentage deviation from the quotient;
- projected number of electors at the 'relevant future date'; and
- projected deviation from the quotient

for each existing electoral district as determined at the 2013 Redistribution of electoral districts.

Name of Existing Electoral District	Current Electors 23 March 2020	Percentage Above/Below Quotient 2020	Projected Electors 17 April 2023	Percentage Above/Below Quotient 2023
Albury	58,029	1.46	60,035	1.34
Auburn	56,274	-1.61	59,374	0.22
Ballina	59,417	3.89	61,991	4.64
Balmain	57,805	1.07	59,054	-0.32
Bankstown	54,774	-4.23	57,207	-3.44
Barwon	54,093	-5.42	54,830	-7.45
Bathurst	57,031	-0.28	59,083	-0.27
Baulkham Hills	56,371	-1.44	58,554	-1.16
Bega	58,444	2.19	61,214	3.33
Blacktown	55,408	-3.12	56,454	-4.71
Blue Mountains	54,385	-4.91	54,744	-7.6
Cabramatta	55,194	-3.5	54,922	-7.3
Camden	75,379	31.8	90,346 <sup>48</sup>	52.5
Campbelltown	54,810	-4.17	56,15148	-5.22
Canterbury	57,473	0.49	58,536	-1.2
Castle Hill	61,104	6.84	68,782	16.1
Cessnock	59,513	4.06	63,230	6.73
Charlestown	55,665	-2.67	56,401	-4.8
Clarence	56,937	-0.45	59,193	-0.09
Coffs Harbour	55,449	-3.05	57,541	-2.87
Coogee	54,810	-4.17	55,467	-6.38
Cootamundra	53,064	-7.22	53,557	-9.6
Cronulla	57,511	0.56	58,492	-1.27
Davidson	55,128	-3.61	55,025	-7.12

<sup>48</sup> A slight adjustment has been made to the projected figures for three existing districts between this table and the District Enrolment Summary 2020\_2023 workbook that was published on the redistribution website (<https://elections.nsw.gov.au/redistribution/Enrolment-data-and-maps>) on 1 June 2020. This is a result of the revised apportionment of the projected enrolment figure in one SA1 (1143859) across the existing district splits. This adjustment impacts 41 electors (projected) in total, but does not affect the total projected figure for that SA1.

<b>Drummoyne</b>	54,154	-5.31	55,307	-6.65
<b>Dubbo</b>	55,872	-2.31	57,360	-3.18

## Appendix 2 - Statistical summary of the composition of each proposed electoral district

The table below sets out:

- the number of electors at the base date;
- percentage deviation from the quotient;
- projected number of electors at the ‘relevant future date’; and
- projected deviation from the quotient

for each electoral district as proposed in this draft determination.

Name of Proposed Electoral District	Current Electors 23 March 2020	Percentage Above/Below Quotient 2020	Projected Electors 17 April 2023	Percentage Above/Below Quotient 2023
Albury	56,925	-0.47	58,930	-0.53
Auburn	58,455	2.21	59,217	-0.04
Badgerys Creek	55,146	-3.58	60,579	2.25
Ballina	57,399	0.36	59,917	1.14
Balmain	57,805	1.07	59,054	-0.32
Bankstown	56,825	-0.64	59,395	0.26
Barwon	54,093	-5.42	54,830	-7.45
Bathurst	57,279	0.15	59,333	0.15
Bega	58,444	2.19	61,214	3.33
Blacktown	57,447	0.44	58,612	-1.07
Blue Mountains	58,984	3.13	59,350	0.18
Cabramatta	60,997	6.65	60,648	2.37
Camden	55,526	-2.91	61,005	2.97
Campbelltown	55,901	-2.26	57,541	-2.87
Canterbury	57,197	0.01	58,514	-1.23
Castle Hill	60,570	5.91	61,155	3.23
Cessnock	56,705	-0.85	60,345	1.86

\* includes Lord Howe Island.

## Appendix 3 - Local government areas contained within proposed electoral district boundaries

The table below provides a breakdown of each proposed electoral district by Local Government Area (LGA). A number of entries refer to 'unincorporated areas', i.e., those areas which are not part of any LGA. These include the Unincorporated Far West; Lord Howe Island Unincorporated Area; and unincorporated waterways such as Sydney Harbour.

Note the table includes a number of LGA references with zero enrolments. These include areas that are typically non-residential - e.g., parks, industrial zones, or waterways - and therefore have no resident electors. Additionally, a number of electoral districts contain small areas (generally less than 1 sq km) where the boundary has been aligned to a prominent feature for improved cartographic representation. These therefore contain a small section of a LGA which includes no electors.

Proposed District	Current Electors	Projected Electors	LGA Name
Albury	37,666	39,325	City of Albury
Albury	9,227	9,431	Federation
Albury	7,596	7,735	Greater Hume Shire
Albury	2,436	2,439	Snowy Valleys

## Appendix 4 – Constitution of each proposed electoral district

The table below describes the composition of each of the 93 proposed electoral districts by reference to the sum of electors within the boundaries of existing electoral districts, as at the current enrolment date of 23 March 2020, and at the future enrolment date of 17 April 2023.

Note this table includes a number of entries with zero enrolments, current or projected. These may include areas that are typically non-residential - e.g., parks, industrial zones, or waterways - and therefore have no resident electors.

Additionally, the redrawing of electoral districts has resulted in some small area transfers (generally less than 1 sq km) in which a boundary has been re-aligned for improved cartographic representation. These include electoral districts in which a section of the boundary has been redrawn to follow a more definable feature, but has not changed in enrolment terms. These electoral districts will therefore contain a small section of an existing electoral district which includes no electors.

### Proposed District of Albury (16,282.38 Sq km)

#### How Constituted

<i>From the existing District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Albury	56,924	58,929
Wagga Wagga <sup>77</sup>	1	1
<b>Proposed Albury Total</b>	<b>56,925</b>	<b>58,930</b>

<i>Parts of the existing District of Albury are transferred as follows to the proposed District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Murray	1,105	1,106
Wagga Wagga <sup>78</sup>	0	0

<sup>77</sup> Part of the locality of Laurel Hill.

<sup>78</sup> Part of the locality of Buddong.

### Proposed District of Auburn (32.03 Sq km)

#### How Constituted

<i>From the existing District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Auburn	36,329	36,697
Bankstown	22,126	22,520
<b>Proposed Auburn Total</b>	<b>58,455</b>	<b>59,217</b>

<i>Parts of the existing District of Auburn are transferred as follows to the proposed District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Granville	8,788	8,932
Parramatta	11,157	13,745
Strathfield <sup>79</sup>	0	0

### Proposed District of Badgerys Creek (396.69 Sq km)

#### How Constituted

<i>From the existing District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Camden	11,850	16,538
Mulgoa	43,296	44,041
<b>Proposed Badgerys Creek Total</b>	<b>55,146</b>	<b>60,579</b>

<i>Parts of the existing District of Mulgoa are transferred as follows to the proposed District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Cabramatta	3,233	3,171

<sup>79</sup> Part of the suburb of Homebush West.

Leppington	5,354	6,866
Liverpool	6,919	6,772
Prospect <sup>80</sup>	0	0

### Proposed District of Ballina (871.88 Sq km)

#### How Constituted

<i>From the existing District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Ballina	57,399	59,917
<b>Proposed Ballina Total</b>	<b>57,399</b>	<b>59,917</b>

<i>Parts of the existing District of Ballina are transferred as follows to the proposed District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Lismore	2,018	2,074

### Proposed District of Balmain (16.13 Sq km)

#### How Constituted

<i>From the existing District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Balmain	57,805	59,054
<b>Proposed Balmain Total</b>	<b>57,805</b>	<b>59,054</b>

<sup>80</sup> Part of the suburb of Horsley Park

### Proposed District of Bankstown (24.39 Sq km)

#### How Constituted

<i>From the existing District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Bankstown	17,910	19,322
East Hills	19	23
Lakemba	38,896	40,050
<b>Proposed Bankstown Total</b>	<b>56,825</b>	<b>59,395</b>

<i>Parts of the existing District of Bankstown are transferred as follows to the proposed District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Auburn	22,126	22,520
East Hills	3,139	3,194
Fairfield	11,599	12,171

### Proposed District of Barwon (356,287.06 Sq km)

#### How Constituted

<i>From the existing District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Barwon	54,093	54,830
<b>Proposed Barwon Total</b>	<b>54,093</b>	<b>54,830</b>

<i>Parts of the existing District of Barwon are transferred as follows to the proposed District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Cootamundra <sup>81</sup>	0	0

<sup>81</sup> Part of the locality of Ungarie.

<i>Parts of the existing District of Barwon are transferred as follows to the proposed District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Murray <sup>82</sup>	0	0
Tamworth <sup>83</sup>	0	0

### Proposed District of Bathurst (16,326.77 Sq km)

#### How Constituted

<i>From the existing District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Bathurst	57,028	59,080
Dubbo <sup>84</sup>	0	0
Upper Hunter	251	253
<b>Proposed Bathurst Total</b>	<b>57,279</b>	<b>59,333</b>

<i>Parts of the existing District of Bathurst are transferred as follows to the proposed District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Orange <sup>85</sup>	3	3

### Proposed District of Bega (9,769.66 Sq km)

#### How Constituted

<i>From the existing District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Bega	58,444	61,214
<b>Proposed Bega Total</b>	<b>58,444</b>	<b>61,214</b>

<sup>82</sup> Part of the locality of Mossgiel.

<sup>83</sup> Part locality of Tambar Springs.

<sup>84</sup> Part of the localities of Lue and Bara.

<sup>85</sup> Part of the locality of Spring Terrace.

### Proposed District of Blacktown (47.51 Sq km)

#### How Constituted

<i>From the existing District of:</i>	Current Enrolment 2020	Projected Enrolment 2023
Blacktown	46,504	47,297
Mount Druitt	7,838	8,129
Prospect	3,105	3,186
<b>Proposed Blacktown Total</b>	<b>57,447</b>	<b>58,612</b>
