Brian Stanley Fisher	Cootamundra 2023 State General Election		31/08/2022	Registered		An independent voice for the people of the Cootamundra electorate free to call it as I see it for the benefit of local constituents. Not stuck in city political agendas or voting along party political lines. Committed to decentralisation, supporting local communities, regional growth and maintaining transport infrastructure. Restoring, developing and growing rail freight and passenger transport services to the regions. Reopening closed railway stations and restoring public access to passenger rail services. Establishing freight hubs for road/rail partnerships, delivering efficient and cost-effective transport systems. With thirty years experience in the transport industry in rail, road and air, as Track Manager Harden I oversaw maintenance and upgrading of rail infrastructure all over the Cootamundra electorate. From Yass to Cootamundra, Harden to Blayney, Eugowra & Grenfell, Galong to Boorowa. I'm opposed to thousands of kilometres of the country rail network including the Cootamundra electorate being ripped up for bike trails supported by the LNP and Labor and ending for good any plans for restoration and upgrading of the regional rail network. Upgrading of existing & construction of new airports including at Grenfell. An end to the use of bitumen for road construction migrating to double reinforced concrete. Committed to restoring transport infrastructure including superhighways, high speed rail. An end to corruption and party agenda politics. Prosecution of MPs who engage in corrupt conduct. I will fight vigorously free of city centric party constraints for the interests of the Cootamundra electorate and regional NSW.

David Alan Booth	Oxley 2023 State General Election		31/08/2022	Registered		To work towards democratic government of the people of Oxley by the people of Oxley I propose to implement a simple mechanism whereby constituents of the electorate can inform me directly of their preference for aye or nay for each major bill presented to the house for voting. In the case where a majority of constituents submits their preference, I will vote according to the will of that majority. Where a majority of constituents have not indicated a preference I will base my vote on whatever information is available to me from within the electorate. For this purpose I will host an online community forum for voters in Oxley which can serve to inform me as well as voters about political activity affecting Oxley. This forum can also serve as a mechanism whereby a majority of constituents can submit a request for me, should I win the seat, to submit a private member bill to the house on their behalf.

David Andrew Chuter	Legislative Council 2023 State General Election	Socialist Alliance	1/12/2022	Registered		NSW has suffered enough from 12 years of LNP government. We face a climate emergency and a housing crisis. We need a massive expansion of public housing that is well located close to jobs and services. We need to greatly expand public and active transport options to keep emissions down, reduce road trauma, air pollution and congestion. We have a building defects crisis brought on by a system of private certification which puts only the interests of property developers first. Education and health is in crisis - respect the workers with decent pay rises. Stop the undemocratic erosion of civil liberties and wind back police powers and anti-protest laws. Support Aboriginal communities, stop deaths in custody. Truth, treaty and justice.

Deanna May Bocking	Gosford 2023 State General Election	The Liberal Party of Australia New South Wales Division	13/01/2023	Registered		
Deborah Ann Swinbourn	Holsworthy 2023 State General Election		11/01/2023	Registered		I will work to restore democracy in NSW and put an end to Liberal elitist rule, Labors socialism and Greens ideology to placate minority first, forgetting ordinary Australians. I am an independent, not tied to political parties who believes in family, Australians first, protecting our history and culture, affordable cost of living and future growth. One major focus will be on the changes to laws in the last 3 COVID years that seek to remove our rights as free people and interrogate Digital ID laws to protect your privacy. I will be the voice of reason standing up for the people of Holsworthy and NSW

Kevin Andrew Loughrey	Ballina 2023 State General Election		1/02/2023	Registered		1. Represent the interests and concerns of my constituents without being constrained by a political Party. 2. Reduce the cost of Energy , in the case of electricity by up to 500% (Since 2007 the cost of electricity has risen by over 600% in real terms. This is hurting the most vulnerable in our community and damaging this Nation's competitiveness). 3. Build dams in the Northern Rivers both for flood mitigation and for water security. 4. Legislate that the Government may not interpose itself between doctors and their patients as has happened during the COVID-19 medical emergency where doctors were forbidden from administering early treatment to their patients; something that would have avoided tens of thousands of needless deaths and incapacitation.

Lisa Robyn Bellamy	Gosford 2023 State General Election		23/01/2023	Registered		I never thought I would run in a State election, however, I am so concerned about our current leaders' lack of environmental policy that I must take a stand. While I understand we need jobs and housing on the Central Coast of NSW, I believe these should not come at the expense of our natural environment and green community spaces. One it's gone, it's gone!! I will be a voice for the natural environment; green spaces, native wildlife and habitat.

Delivering effective affordable housing, delivering meaningful jobs, effective and improved hospital care based upon totally voluntary informed decisions for all medical procedures, including vaccinations; decisive flood mitigation programs including via the use of off-river dams; protecting communities from bushfires via effective hazard reduction and efficient environmentally friendly fire control and management; community consultive approach to all development; protection of all human life from conception to old age; increased funding for palliative care and aged care; nursing staff increases in all hospitals and nursing homes; re-instatement to the same level for all teachers who were dismissed due to covid without penalty. We oppose the current immoral gender confusion and re-assignment agenda as it is demonstrated as totally unscientific by the fact that the promoters of this horrific policy do not permit discussion on the subject. (all scientific statements are encouraged to be subjected to discussion and debate). Many other policies can be found at: www.christiansforcommunity.com.au

Nikola Leka	Newcastle 2023 State General Election	Socialist Alliance	21/12/2022	Registered		The cost of living is going through the roof. Nearly everyone is feeling the pinch. Corporations and their wealthy owners increase prices, leading to inflation. They The housing crisis means more and more working people cannot afford to rent or buy a home. Meanwhile, greedy developers are making windfall profits thanks to state planning laws. The system is geared to put profits before people's needs, and this needs to be reversed. State subsidies to fossil fuel corporations must end and funding redirected to public health, education, transport and climate action. The overloaded health system, from the "000" call centre and ambulances to emergency departments, hospital wards and allied health, desperately needs more funding and safe staffing. Public schools are underfunded, with young teachers leaving because of poor pay, overwork and short-term contracts. Public transport is being run down in favour of private tollways, which we are locked into paying for. Extreme heat, cold, storms, floods and fires are reminders of the urgent need to rapidly transition to clean energy. The energy industry must be returned to public ownership, to make the transition to 100% renewables, without leaving workers behind. Capitalism creates problems which it cannot solve. To find solutions, we need to organise in our communities and workplaces to challenge the power of the corporations and to redistribute society's wealth and prioritise urgent social needs.
Nina Angela Digiglio	South Coast 2023 State General Election		13/02/2023	Registered		To represent the South Coast community & ensure the voice of the people is heard by the State Parliament. Issues of State interest - Schools, hospitals & emergency services is a priority.
Palaniappan Subramanian	Winston Hills 2023 State General Election		11/01/2023	Registered		Despite tax payor funding political parties and candidates (70M\$ in 2022 election), major political parties get unlimited donations from corporates & lobby and keep loopholes in election donation & campaign laws so they can hide/lie easily. Using this funding, Political parties then fund fake ads & people vote for it. This leads to no integrity in political actions whether it is in climate action, government contracts/subsidies, loopholes etc for Million\$ donors so their ROI is Billion\$. 98% Scientists are screaming that Government climate action whether in discouraging private jets/yachts and Super boost renewables & electrify everything everywhere is not happening. I want to be voice for all this. As Asian migrant, I am proud to represent this community

Rebecca Lea Thompson	Wollondilly 2023 State General Election	Pauline Hanson's One Nation	13/12/2022	Registered		Bring the state governments attention to the real issues in Wollondilly. The community is growing greatly with more housing estate being built. We do not have the appropriate infrastructure to accommodate the population. I will be advocating for funding for the Bypass at Picton which has been promised but never delivered and has been used as a political tool for every state and federal election to date. I will also advocate and have costing drawn up for a new public high school. Wollondilly needs urgent road repairs and upgrades, we have been forced to accept unsafe roads for too long. I would also like to see more public transport to cater to the more rural areas of Wollondilly.

Robert Bruce Young	Cootamundra 2023 State General Election		19/05/2022	Registered		Robert's campaign platform is to bring back basic democratic, transparent governance to the parliament of New South Wales. The people of New South Wales are not looking for leadership and/or a leader, they are looking for a cohesive professional administration, who will represent and administer to the democratic, majority will of the people, that they were elected &/or employed to represent &/or provide a professional service to. Robert's immediate & main goal at this time is to lobby & table a bill for the removal of the relevant act's allowing. authorising the merger of a number of local government area's which were un-democratically en-acted by the NSW Government on the effected area's & citizen's in an autocratic un-transparent operation, in un-substantiated circumstances.

Stephen Mark O'Brien	Legislative Council 2023 State General Election	Socialist Alliance	15/12/2022	Registered		The cost of living is going through the roof. Nearly everyone is feeling the pinch. Corporations and their billionaire owners increase prices and cause inflation. They make huge profits, but pay little or no tax and try to keep your pay down. We have a massive housing crisis. For most people, a house is their home. For developers, where you live is their chance to make a profit. Corporate subsidies must be abolished, with funding redirected to public health, education and transport. The health system is underfunded and overloaded, from the "000" call centre and ambulances to emergency departments, hospital wards and allied health. Safe staffing is desperately needed. Public schools are underfunded. Teachers are leaving because of poor pay, overwork and short-term contracts. Public transport is being run down in favour of private transportation, which has a huge impact on the environment as well. As the climate crisis produces more extreme heat, cold, floods, storms and fire events, the need to rapidly transition to clean energy becomes more urgent. If the energy industry was returned to public ownership, we would have a chance to make the urgent transition to 100% renewable energy without leaving workers behind. The capitalist profits-first system is incapable of solving the climate crisis or reversing growing inequality. We need community and workplace campaigns, based on social justice and solidarity, to help distribute society's wealth equitably and save the planet.

Van Hieu Huynh	Willoughby 2023 State General Election		13/01/2023	Registered		As an expert in public policy, economics and high-technology, my objective in this election is to revoke any policies that limiting the freedom and democracy rights of the people in this state and make New South Wales the most freedom state in Australia. In addition, I'll work to establish new policies to remove all obstacles to enable this state to be the most advance state in term of high technology as well as turn the NorthShore to a new world's Silicon Valley. 1. Promote democracy and more freedom by revoking the recent draconian anti-protest law that restrict the right of protest of the people in New South Wales. 2. Revoking all other policies to make New South Wales the most freedom state in Australia. 3. Create more policies to create the most advance high technology hub of the world in North shore. 4. Independence for more effective anti-corruption inquiries. 5. Independence for a more effective cooperation with other parties in solving issues of climate change, inflation and economic recession issues.
