Butler, Liza Anne	South Coast 2023 State General Election	Australian Labor Party (NSW Branch)	27/10/2022	Registered		As a member of the Labor Party, I want to improve Education and Health standards in NSW, invest in Social and Affordable housing and stop the privatisation of Government assets.
Butler, Royal Francis	Barwon 2023 State General Election		23/01/2023	Registered		
Caine, Milton Clive	Legislative Council 2023 State General Election		9/12/2022	Registered		Both Robert Skillin and I are fully committed to strong moral decision processes across all areas of government based upon Judeo-Christian values, and pro-life policies delivering no harm to minors. We would urge the delivery of effective affordable housing; meaningful jobs; effective and improved hospital care based upon totally voluntary and informed decisions for all medical procedures, including vaccinations; the protection of all human life from conception to old age; increased funding for palliative care and aged care; nursing staff, in both wages and actual numbers employed increases in all hospitals and nursing homes; re-instatement, without penalty, to the same level for all teachers who were dismissed due to covid. We oppose the current immoral gender confusion and re-assignment agenda which is demonstrated as being totally unscientific by the fact that its promoters do not permit any discussion on the subject. We also stand for a community consultative approach to all development; decisive flood mitigation programs including the use of off-river dams; protecting communities from bushfires via effective hazard reduction and efficient environmentally-friendly fire control and management. Many other policies can be found at: <a href="http://www.christiansforcommunity.com.au">www.christiansforcommunity.com.au</a>

Chuter, David Andrew	Legislative Council 2023 State General Election	Socialist Alliance	1/12/2022	Registered		NSW has suffered enough from 12 years of LNP government. We face a climate emergency and a housing crisis. We need a massive expansion of public housing that is well located close to jobs and services. We need to greatly expand public and active transport options to keep emissions down, reduce road trauma, air pollution and congestion. We have a building defects crisis brought on by a system of private certification which puts only the interests of property developers first. Education and health is in crisis - respect the workers with decent pay rises. Stop the undemocratic erosion of civil liberties and wind back police powers and anti-protest laws. Support Aboriginal communities, stop deaths in custody. Truth, treaty and justice.

Establishing freight hubs for road/rail partnerships, delivering efficient and cost-effective transport systems. From Yass to Cootamundra, Harden to Blayney, Eugowra & Grenfell, Galong to Boorowa. I'm opposed to thousands of kilometres of the country rail network including the Cootamundra electorate being ripped up for bike trails supported by the LNP and Labor and ending for good any plans for restoration and upgrading of the regional rail network. Upgrading of existing & construction of new airports including at Grenfell. An end to the use of bitumen for road construction migrating to double reinforced concrete. Committed to restoring transport infrastructure including superhighways, high speed rail. An end to corruption and party agenda politics. Prosecution of MPs who engage in corrupt conduct. I will fight vigorously free of city centric party constraints for the interests of the Cootamundra electorate and regional NSW.

Leka, Nikola	Newcastle 2023 State General Election	Socialist Alliance	21/12/2022	Registered		The cost of living is going through the roof. Nearly everyone is feeling the pinch. Corporations and their wealthy owners increase prices, leading to inflation. They The housing crisis means more and more working people cannot afford to rent or buy a home. Meanwhile, greedy developers are making windfall profits thanks to state planning laws. The system is geared to put profits before people's needs, and this needs to be reversed. State subsidies to fossil fuel corporations must end and funding redirected to public health, education, transport and climate action. The overloaded health system, from the "000" call centre and ambulances to emergency departments, hospital wards and allied health, desperately needs more funding and safe staffing. Public schools are underfunded, with young teachers leaving because of poor pay, overwork and short-term contracts. Public transport is being run down in favour of private tollways, which we are locked into paying for. Extreme heat, cold, storms, floods and fires are reminders of the urgent need to rapidly transition to clean energy. The energy industry must be returned to public ownership, to make the transition to 100% renewables, without leaving workers behind. Capitalism creates problems which it cannot solve. To find solutions, we need to organise in our communities and workplaces to challenge the power of the corporations and to redistribute society's wealth and prioritise urgent social needs.

Loughrey, Kevin Andrew	Ballina 2023 State General Election		1/02/2023	Registered		1. Represent the interests and concerns of my constituents without being constrained by a political Party. 2. Reduce the cost of Energy , in the case of electricity by up to 500% (Since 2007 the cost of electricity has risen by over 600% in real terms. This is hurting the most vulnerable in our community and damaging this Nation's competitiveness). 3. Build dams in the Northern Rivers both for flood mitigation and for water security. 4. Legislate that the Government may not interpose itself between doctors and their patients as has happened during the COVID-19 medical emergency where doctors were forbidden from administering early treatment to their patients; something that would have avoided tens of thousands of needless deaths and incapacitation.

						The cost of living is going through the roof. Nearly everyone is feeling the pinch. Corporations and their billionaire owners increase prices and cause inflation. They make huge profits, but pay little or no tax and try to keep your pay down. We have a massive housing crisis. For most people, a house is their home. For developers, where you live is their chance to make a profit. Corporate subsidies must be abolished, with funding redirected to public health, education and transport. The health system is underfunded and overloaded, from the "000" call centre and ambulances to emergency departments, hospital wards and allied health. Safe staffing is desperately needed. Public schools are underfunded. Teachers are leaving because of poor pay, overwork and short-term contracts. Public transport is being run down in favour of private transportation, which has a huge impact on the environment as well. As the climate crisis produces more extreme heat, cold, floods, storms and fire events, the need to rapidly transition to clean energy becomes more urgent. If the energy industry was returned to public ownership, we would have a chance to make the urgent transition to 100% renewable energy without leaving workers behind. The capitalist profits-first system is incapable of solving the climate crisis or reversing growing inequality. We need community and workplace campaigns, based on social justice and solidarity, to help distribute society's wealth equitably and save the planet.

Swinbourn, Deborah Ann	Holsworthy 2023 State General Election		11/01/2023	Registered		I will work to restore democracy in NSW and put an end to Liberal elitist rule, Labors socialism and Greens ideology to placate minority first, forgetting ordinary Australians. I am an independent, not tied to political parties who believes in family, Australians first, protecting our history and culture, affordable cost of living and future growth. One major focus will be on the changes to laws in the last 3 COVID years that seek to remove our rights as free people and interrogate Digital ID laws to protect your privacy. I will be the voice of reason standing up for the people of Holsworthy and NSW

Thaler, Andrew Evan	Monaro 2023 State General Election		27/02/2023	Registered		I bring ACCOUNTABILITY to the political debate, and provide a true alternative to the Red and the Blue gangs. The only opportunity for Monaro is to shake off the shameful past of the Berejiklian-Bruz Pork-Barrelling and embrace the future, free from false promises and fake soil-turning events associated with the National Party and Nichole Barilaro now. I will stongly oppose Rate Rises in our local councils. I will strongly oppose the corrupt changes to Rural Land Use Strategies (RLUS), where small farms and small farm enterprise is being snuffed out by red-tape to favour the large corporate farm agenda. I will ensure respect to our first people, the true TO's for each respective area. I will oppose the influence of outside Land Councils conspiring with government to 'approve' selcted projects in secret. I will end the age of secrecy by continuing to Say Out Loud the things that everyone thinks. I will make sure our Federal Elected member for Eden-Monaro remembers that the MONARO exists, and send her a detailed travel map highlighting all the mobile phone blackspots and destroyed roads. I will continue to shine a light on Snowy 2.0

Thompson, Rebecca Lea	Wollondilly 2023 State General Election	Pauline Hanson's One Nation	13/12/2022	Registered		Bring the state governments attention to the real issues in Wollondilly. The community is growing greatly with more housing estate being built. We do not have the appropriate infrastructure to accommodate the population. I will be advocating for funding for the Bypass at Picton which has been promised but never delivered and has been used as a political tool for every state and federal election to date. I will also advocate and have costing drawn up for a new public high school. Wollondilly needs urgent road repairs and upgrades, we have been forced to accept unsafe roads for too long. I would also like to see more public transport to cater to the more rural areas of Wollondilly.

The people of New South Wales are not looking for leadership and/or a leader, they are looking for a cohesive professional administration, who will represent and administer to the democratic, majority will of the people, that they were elected &/or employed to represent &/or provide a professional service to.
