DATE OF BIRTH

Other information relating to my experience, ability and aptitude to hold civic office:

(may include statements of beliefs and policies - all information must be restricted to the space provided below).

Over the past decade, I've worked as a consultant and advocate, engaging with all levels of government on policies, programs, incentives and legislation to improve the environmental performance of apartment buildings. My experience includes contributing to the development of NABERS for Apartment Buildings and working alongside council's Smart Green Apartments team.

I bring a unique blend of technical expertise and sustainability knowledge to civic leadership, particularly in helping apartment communities work towards NetZero goals. My aim is to bridge the gap between environmental targets and real-world implementation, contributing to more sustainable urban living.
