

# A BETTER, FAIRER REGION

## FAIRER HEALTH, EDUCATION & SOCIAL SERVICES

The Greens will ensure people in rural and regional communities have the same access to quality healthcare, education and social services as people in major cities

## AFFORDABLE HOUSING

We will build affordable, energy-efficient homes designed for our climate so everyone has an affordable, safe and secure place to call home

## CLIMATE ACTION

Global heating is leading to more frequent and intense droughts, floods, fires and superstorms, driving up agricultural costs and reducing productivity.

The Greens will:

- End government handouts to coal and gas corporations and for native forest logging
- Make wealthy coal corporations pay for their climate damage by increasing coal royalties
- Invest in cheap, reliable renewable energy and storage
- Protect water from exploitation, and develop sustainable water security infrastructure

## RENEWABLE ENERGY REWARDS

We will reduce power prices, making sure renewable energy developers offer low-cost energy deals for residents in the New England Renewable Energy Zone and remove barriers that make it hard to access energy-efficiency rebates in non-metro areas

## CONVENIENT PUBLIC TRANSPORT

We'll develop a Northern Tablelands Transport Plan, with a view to a convenient service connecting Armidale, Guyra, Glen Innes, Inverell and Bundarra, as well as Uralla, Walcha, Moree, Tamworth, Sydney and Brisbane

## LOCAL DECISION-MAKING

The Greens believe local communities are best placed to make local decisions. We'll end state government cost shifting to local councils and put a stop to ineffective grants designed to buy votes. Instead, we'll put the power back in the hands of communities, so councils can spend money where it's most needed

## DEAR FRIENDS & NEIGHBOURS,

I'm an Armidale local of over 30 years and one of your local councillors. I'm committed to people before politics, and I'm a strong advocate for a fair share of resources for our region.

As your voice in parliament I will demand the same quality of health and social services as metropolitan areas. People in our region should have the right to expect to live as long as Sydneysiders!

I will advocate for urgent climate action to protect agricultural productivity, safeguard the future for our children and protect nature and wildlife.

I will make sure coal corporations pay their fair share. If NSW had the same coal royalties as QLD, our people and economy would have been \$5 billion better off last year alone. By ending government handouts to multinational coal and gas corporations and instead investing in cheap, reliable renewable energy, we could reduce energy costs, improve local services, and ease cost of living pressures.

Our community should have more say in decisions that affect us. I will push to remove bureaucratic barriers for grant applications, and put the power and funds back in our hands for creative, cost effective solutions for better, safer and friendlier communities.

### Your vote is powerful.

Use it to send a strong message to the major parties about reducing the cost of living and protecting our precious planet.

Warm regards,

*Dorothy Robinson*

# YOUR VOTE IS POWERFUL

Use it for a better, fairer region and a government committed to:

- ▲ Low cost renewable energy
- ▲ Ending climate damaging subsidies
- ▲ Quality health and dental services
- ▲ More affordable and social housing
- ▲ Well funded, reliable public transport
- ▲ Action on the cost of living crisis
- ▲ Reducing the impact of climate change on our wild places, wildlife and agricultural land
- ▲ Replacing bureaucratic processes for grant applications and give communities a real say in local decisions

**VOTE 1 DOROTHY ROBINSON**

Vote 1 Greens, then as many boxes as you like in order of preference
